

Information and Communication Technology 1

Code: COS1LC0014
Extent: 6 cr (162 h)
Timing: 1st semester
Language: English
Level: Basic studies
Type: Compulsory

Starting level and linkage with other courses

No prerequisites.

Learning outcomes

Upon successful completion of the course, the student

- is proficient in using HAAGA-HELIA guidelines in both written and oral reporting and understands how to use relevant software and methods to achieve the goals
- knows the principles of community communication, is able to act accordingly in various project roles and to act responsibly in a multicultural environment
- has learnt the standards of knowledge creation in business environment and has a professional understanding of the knowledge-sharing processes

Course contents

- MS-Office 2013 (Excel, PowerPoint, Publisher, Visio, Word), Prezi
- orientation in social media
- standards of business communication
- project management tools (LeaP)
- Academic writing and plagiarism

Cooperation with the business community

Learning outcomes will be reached through working in real-life projects.

Teaching and learning methods

Inquiry learning
The assessment of one's own learning 1 h

Recognition of prior learning (RPL)

Recognition of prior learning (RPL) is observed on the course according to separate instructions.

COS1LC0014 Information and Communication Technology 1

Learning outcomes

Upon successful completion of the course, the student

- will be familiar in how to use Excel as a business tool and apply this knowledge in working life
- can use Webropol as a survey tool and do basic data analysis
- will have basic knowledge of working with Sharepoint (LeaP)

Course contents

- MS-Excel 2013 statistical, logical, financial, time and lookup functions.
- pivot tables and filtering data
- visuals data with charts
- using Webropol, creating questionnaires and analyse data
- project management tools (LeaP)

Cooperation with the business community

Learning outcomes will be reached through working in real-life projects and contact lessons.

Professional Communication 1

Code: COS1LC0021

Extent: 3 cr (81 h)

Timing: 1st semester

Language: English

Level: Basic studies

Type: Compulsory

Starting level and linkage with other courses

No prerequisites

Learning outcomes

Upon successful completion of the course, the student will be able

- to distinguish various text genres needed in project work;
- to assume various professional roles in a multicultural environment;
- to understand the principles of professional feedback;
- to understand the importance of source criticism;
- to develop professional identity and socially responsible behaviour;
- to maintain high-standards of written/spoken/media/technology interaction
- to develop advanced public speaking skills, including presentation skills;
- to understand job application process

Course contents

- Public speaking, presentation skills
- Professionalism, job application
- External and internal communication
- Project communication

Cooperation with the business community

Learning objectives will be reached through real-life projects.

Teaching and learning methods

English Communication

Code: COS1LC0011
Extent: 3 cr (81 h)
Timing: 1st semester
Language: English
Level: Basic studies
Type: Compulsory

Starting level and linkage with other courses

No prerequisites

Learning outcomes

Upon successful completion of the course, the student is able

- to use HAAGA-HELIA guidelines in both written and oral reporting
- to understand what English language is and how it is used professionally;
- to distinguish the patterns of spoken texts from the patterns of written texts;
- to extend one's vocabulary and improve grammar in writing and speech;
- to edit simple texts (self- and peer review) towards professional language;
- to develop public speaking skills, including presentation skills;
- to develop basic argumentation and debate skills.

Course contents

- Review of English vocabulary (professional) and grammar;
- Review of articulation and pronunciation
- English genres; variants and registers
- Oral and written presentation skills
- Meeting techniques
- Working with dictionaries and other references
- English language in media communication
- basics of academic writing, plagiarism

Cooperation with the business community

Learning outcomes will be reached through working in real-life projects.

English Writing Clinic

Code: ENG1LC028
Extent: 3 cr (81 h)
Timing: 6th semester
Language: English
Level: Basic studies
Type: Compulsory

Starting level and linkage with other courses

Creating and Sharing Knowledge
Professional Communication
Business English
Academic English
Experience in project work
Reliable knowledge of HAAGA-HELIA reporting guidelines
Knowledge of basic research practices
Enrolment in a thesis seminar group

Learning outcomes

- Upon successful completion of the course, the students will be able to identify challenges with academic writing in their own texts, seek help and make adjustments
- manage their writing process in an collaborative and time-efficient way;
- see the value of co-authorship, peer review and peer-editing
- advance the thesis writing process

Course contents

- writing assignments (abstracts and introduction, literature review, documentation of research/practice processes, reports of results, and evaluation)
- coaching and consultations (academic vocabulary, grammar, discourse; positive and negative appraisal in academic writing)
- peer editing workshops (analysing peers' work)

Cooperation with the business community

The course will encourage the involvement of the commissioners of the students' theses in their writing (whenever possible)

Teaching and learning methods

Online counselling: Inquiry learning

Team work: Course Assignment 1 - the students in pairs make individual plans of their studies for the course, based on the implementation plan, and discuss with the instructor the timeline and the learning expectations; Course Assignment 2a, 2b, 2c, etc. - the students in pairs edit texts of each other; whereby each student can demonstrate how he or she edited another student's text.

Individual work: Course Assignment 3a, 3b, 3c, etc. - the students adjust their own texts following, first, the feedback of their peer students and, second, the feedback of their instructor. Course Assignment 4 - the students write a learning diary and compile a course portfolio.

The assessment of one's own learning 1 h

Recognition of prior learning (RPL)

Recognition of prior learning (RPL) is granted according to HAAGA-HELIA's instructions.

Assessment criteria

The course is evaluated on scale 1 to 5. The assessment criteria are presented on scale 1 - 3 - 5.

Components	1 (40%)	3 (70%)	5 (90%)
Knowledge What they know, understand, informed about	The student has a very limited understanding of text composition and editing in academic writing; of how to develop, implement, document, and report a research process according to the standards of HH thesis	The student has a reliable understanding of text composition and editing in academic writing; of how to develop, implement, document, and report a research process according to the standards of HH thesis	The student has an advanced understanding of text composition and editing in academic writing; of how to develop, implement, document, and report a research process according to the standards of HH thesis
Skills What they do, perform, execute	The student follows course activities with difficulty and needs extra supervision . The student lacks sufficient skills of peer review and editing	The student performs well course assignments within a team and independently yet still requires supervision . The student demonstrates satisfactory skills in peer review and editing	The student accomplishes course assignments in an exemplary manner . The student demonstrates strong peer editing skills and can manage his/her own writing with little supervision
Competence The degree of being relevant and valid in work-life context	The student is able to apply the knowledge and skills of thesis writing at a minimal professional level required in worklife. Portfolio writing is acceptable .	The student is able to apply the knowledge and skills of thesis writing at a standard professional level required in worklife. Portfolio writing is mature .	The student is able to apply the knowledge and skills of thesis writing at a highly professional level required in worklife. Portfolio writing is mature and can be used in teaching

Assessment components and their respective weights

Active participation in the course's activities 30%

Course assignments 70%

The course requires 100% continuous attendance via online tools (Moodle and Skype). Course assignments must be submitted on time.

The assessment of one's own learning does not influence the grade. The assignment is the same for all courses/modules and the answers will also be used for course/module development. The assignment is completed online in WinhaOpaali.

Business English

Code: ENG1LC029
Extent: 6 cr (162 h)
Timing: 3rd semester
Language: English
Level: Core studies
Type: Compulsory

Starting level and linkage with other courses

Creating and Sharing Knowledge
Professional Communication

Learning outcomes

Upon successful completion of the course, the student will be able to

- Internal and external communication, use of social media at work (basic)
- Writing, editing, and proof-reading in business correspondence
- Negotiation, debate and discussions
- Business terminology
- Business correspondence: Inquiries, Quotations, Orders, Confirmations, Complaints and Adjustments, Sales Letters
- Business news
- Research methods in business studies (basic)

Course contents

- Writing, editing, and proof-reading in business correspondence
- Negotiation, debate, discussions
- Business terminology
- Genres of business correspondence: Inquiries, Quotations, Orders, Confirmations, Complaints and Adjustments, Sales Letters
- Business news
- Research methods in Business studies (basic)

Cooperation with the business community

Guest lectures and study visits are arranged if possible. The students will interview representatives of companies.

Teaching and learning methods

Inquiry learning; the students set their individual goals at the beginning and work towards them. Classroom work is based on the students' reading and writing tasks, working in teams and commenting on the work accomplished. The students receive feedback on their weekly tasks which helps them improve their skills and focus on the problematic areas of their language usage. The students compile a language portfolio on their course work during the course.

Contact hours 56 h
Self-study 105 h
The assessment of one's own learning 1 h

Recognition of prior learning (RPL)

Recognition of prior learning (RPL) is granted according to HAAGA-HELIA's instructions.

Academic English

Code: ENG1LC030
Extent: 3 cr (81 h)
Timing: 5th semester
Language: English
Level: Core studies
Type: Compulsory

Starting level and linkage with other courses

Prerequisites:
Creating and Sharing Knowledge
Professional Communication
Business English
Experience in project work
Reliable knowledge of HAAGA-HELIA reporting guidelines
Knowledge of basic research practices

Learning outcomes

Upon successful completion of the course, the students will be able to

- organise their own writing process in a responsible and productive way;
- apply the standards of English academic writing in their own texts;
- advance critical thinking skills, formulate research ideas, and argue for/oppose them in writing;
- follow the developments in the industry of academic publishing;
- see the value of interdisciplinary research, co-authorship, and research-informed activities

Course contents

- writing workshops (abstracts and proposals, literature review, documentation of research/practice processes, reports, and evaluation)
- discussion and debate (publishing industry; interdisciplinary research; multiple authorship)
- lectures (academic vocabulary, grammar, discourse; positive and negative appraisal in academic writing)
- editing workshops (analysing established authors; analysing peers' work; comparing several publishing formats)

Cooperation with the business community

Guest lecturers are invited if relevant.

Teaching and learning methods

Classroom activities (28h): Inquiry learning

Independent Team work (28 h): Assignment 1 - the students select and present texts by prominent scholars in their field that shows the writing style that they are inspired by; Assignment 2 - the students co-author a proposal.

Independent Individual work (28h): Assignment 3 - the students write their own section/chapter, based on a model; Assignment 4 - the students write a learning diary and complete a self-evaluation form.

The assessment of one's own learning 1 h

Recognition of prior learning (RPL)

Recognition of prior learning (RPL) is granted according to HAAGA-HELIA's instructions.

Teachers responsible

Professional Finnish 1

Tunnus: COM1RG101
Laajuus: 3 op (81 t)
Ajoitus: 1. lukukausi
Kieli: suomi
Opintojakson taso: perusopinnot
Opintojakson tyyppi: pakollinen

Lähtötaso ja sidonnaisuudet muihin opintojaksoihin

Kuuluu kansainvälisten ohjelmien suomenkielisten opiskelijoiden kieliopintoihin. Toteutetaan osittain yhteisissä projekteissa ammattiaineiden sekä ICT-kurssien kanssa.

Oppimistavoitteet

Kurssin suoritettuaan opiskelija

- tuntee yhteisöviestinnän periaatteet ja osaa toimia niihin liittyvissä rooleissa monikulttuurisessa ympäristössä
- osaa laatia liike-elämään ja projekteihin liittyviä tiedottavia tekstilajeja, suunnitelmia ja raportteja
- hallitsee liikekirjeenvaihdon
- pystyy laatimaan työpaikan hakuun tarvittavat asiapaperit
- osaa kirjoittaa virheetöntä yleissuomea

Sisältö

Kurssilla opitaan yhteisöviestinnän käsitteistö suomeksi ja harjaannutaan keskeisten työelämässä tarvittavien tekstilajien laatimiseen. Monet kurssin harjoitteet liittyvät opiskelijoiden muiden oppiaineiden projekteihin. Tärkeä osa kurssista on kielenhuolto, jota opiskellaan itsenäisesti verkkomateriaalin avulla. Kurssin keskeinen sisältö on seuraava:

- yhteisöviestinnän käsitteet
- raportointi
- asiakirjastandardit
- referaatti, tiivistelmä, liike-elämän kirjeet, rekrytoinnin asiapaperit
- kirjoittaminen
- liikekirjeet
- oikeakielisyys
- lehdistötiedote
- mediasuhteet.

Opetus- ja oppimismenetelmät

Opettajan toteuttamaa lähiopetusta erillisen ohjelman mukaisesti noin 15 tuntia 1. lukukautena. Suurin osa kurssin toteutuksesta on opiskelijoiden itsenäistä työskentelyä, joka paljolti pohjautuu muiden oppiaineiden projekteihin. Kielenhuollon kokonaisuudesta on tentti. Oman oppimisen arviointi 1 h

Aikaisemmin hankitun osaamisen tunnustaminen (AHOT)

Opintojaksolla noudatetaan aikaisemmin hankitun osaamisen tunnistamismenettelyä erikseen annettavan ohjeen mukaan.

Vastuopettaja

Antti Kurhinen, Porvoo
Marjo Vuokko, Porvoo

Oppimateriaali

Luennot ja tunnilla jaettava oheismateriaali.

Kortetjärvi-Nurmi, S., Kuronen, M.-L. & Ollikainen, M. 2008. Yrityksen viestintä. Edita. Helsinki

Arvioinnin kohteet ja kriteerit

Opintojakso arvioidaan asteikolla 1 – 5. Arviointikriteerit on esitetty asteikolla 1 – 3 – 5.

Arvosanat/ Kohteet	1 (40%)	3 (70%)	5 (90%)
Tiedot	Opiskelija tuntee viestinnän merkityksen yhteisöjen menestystekijänä. Hänellä on suomenkielisen yhteisöviestinnän perustiedot.	Opiskelija tuntee viestinnän merkityksen yhteisöjen menestystekijänä. Hänellä on hyvät tiedot suomenkielisestä yhteisöviestinnästä.	Opiskelija tuntee viestinnän merkityksen yhteisöjen menestystekijänä. Hänellä on erinomaiset tiedot suomenkielisestä yhteisöviestinnästä.
Taidot	Opiskelija tekee lähes kaikki annetut oppimistehtävät ajallaan. Hänellä on tyydyttävä kyky tuottaa suomenkielistä asiatekstiä ja laatia erilaisia yhteisöviestintään liittyviä tekstilajeja.	Opiskelija tekee lähes kaikki annetut oppimistehtävät ajallaan. Hänellä on hyvä kyky tuottaa suomenkielistä asiatekstiä ja laatia erilaisia yhteisöviestintään liittyviä tekstilajeja.	Opiskelija tekee kaikki annetut oppimistehtävät ajallaan. Hänellä on erinomainen kyky tuottaa suomenkielistä asiatekstiä ja laatia erilaisia yhteisöviestintään liittyviä tekstilajeja. Opiskelijan tuottamat tekstit sopivat sellaisenaan yhteisöviestintään.
Pätevyys	Osallistuu melko vähän ryhmän toimintaan. Vähäinen itsenäinen panostus.	Osallistuu hyvin ryhmän toimintaan. Osaa toimia melko itsenäisesti.	Osallistuu erittäin aktiivisesti työskentelyyn ja on mukana 80 % kurssin opetuksesta. Osaa toimia itsenäisesti. On innovatiivinen ja omaa positiivisen asenteen.

Arviointitavat ja niiden painoarvo

Oppimistehtävät 70 %

Kielenhuollon tentti ja tehtävät 30 %

Oman oppimisen arviointitehtävä ei vaikuta arvosanan muodostukseen. Tehtävä on kaikille opintojaksoille/-kokonaisuuksille yhteinen ja vastauksia käytetään myös opintojakson/-kokonaisuuden kehittämiseen. Tehtävä tehdään WinhaOpaalissa.

Professional Finnish 2

Tunnus: COM1LC111
Laajuus: 3 op (81 h)
Ajoitus: 3 lukukausi
Kieli: suomi
Opintojakson taso: perusopinnot
Opintojakson tyyppi: pakollinen

Lähtötaso ja sidonnaisuudet muihin opintojaksoihin

Kuuluu kansainvälisten ohjelmien suomenkielisten opiskelijoiden kieliopintoihin. Toteutetaan osittain yhteisissä projekteissa ammattiaineiden sekä ICT-kurssien kanssa. Edellyttää Ammattisuomi 1 -opintojakson suorittamista.

Oppimistavoitteet

Kurssin suoritettuaan opiskelija

- osaa viestiä ammattimaisesti ja monipuolisesti sekä yrityksen sisäisessä että ulkoisessa toimintaympäristössä
- osaa laatia myyviä ja vaikuttavia tekstilajeja sopivia työvälineohjelmia käyttäen
- pystyy käyttämään suomen kieltä asiantuntijamaisesti omasta ammattialasta viestiessään.

Sisältö

Kurssilla opitaan erityisesti ulkoisen ja sisäisen viestinnän ammattimaista käyttöä työelämäprojekteissa. Erityistä huomiota kiinnitetään myyvien ja tiedottavien tekstilajien laatimiseen ja kieleen. Kurssilla perehdytään myös ammattiaineiden käsitteistön hallintaan, kielen muutokseen ja vieraaseen vaikutukseen. Kurssin keskeinen sisältö on seuraava:

- esite
- mainos
- myyvä teksti
- referaatti
- oikeakielisyys
- matkaraportti
- essee

Opetus- ja oppimismenetelmät

Opettajan toteuttamaa lähiopetusta erillisen ohjelman mukaisesti noin 15 tuntia 1. ja 2. lukukautena. Suurin osa kurssin toteutuksesta on opiskelijoiden itsenäistä työskentelyä, joka paljolti pohjautuu muiden oppiaineiden projekteihin. Kurssiin kuuluu myös portfolion laatiminen omasta viestintäosaamisesta. Oman oppimisen arviointi 1 h

Aikaisemmin hankitun osaamisen tunnustaminen (AHOT)

Opintojaksolla noudatetaan aikaisemmin hankitun osaamisen tunnistamisenmenettelyä (AHOT) erikseen annettavan ohjeen mukaan.

Vastuopettaja

Antti Kurhinen, Porvoo
Jörgen Wollsten, Porvoo

Arvioinnin kohteet ja kriteerit

Opintojakso arvioidaan asteikolla 1 – 5. Arviointikriteerit on esitetty asteikolla 1 – 3 – 5.

Swedish for Service Encounters

Code: SWE2RG001
Extent: 3 cr (81 h)
Timing: 1st semester
Language: English /Swedish
Level: Core studies
Type: Compulsory

Starting level and linkage with other courses

Sixth form or the like. B1 on Common European Framework of Reference for Languages (CEFR).
<http://europass.cedefop.europa.eu/en/resources/european-language-levels-cefr>

Learning outcomes

Upon completion of this course, the student

- has a good understanding of basic business vocabulary. She/he is able to work in customer service and use the Swedish language orally and in writing
- knows how to write short work-related messages and discuss her / his educational background, studies, work and tasks
- will be able to give her / his opinion and discuss current issues in the field
- has learnt to search for information in Swedish and pass it on to others

Course contents

- Att berätta om sig själv (bakgrund, studier, framtidsplaner, karriär)
- Vardaglig kommunikation på jobbet: kundbetjäning, telefonsvenska, e-post och småprat
- Att tala om jobbet och presentera företaget
- Aktuella nyheter inom branschen (att bekanta sig med pressen och webben)

Cooperation with the business community

Students seek out to the local business community and make interviews. Also, local companies are studied for company presentations. Possible guest lecturers from different companies.

Some of the course material comes from the business communities and the students' semester projects are connected with some of the course work where feasible (e.g. study visits, company presentations).

International dimension

Possible guest lecturers from international companies.

International learning materials. Similarities and differences between the Swedish and Finnish business practices and modes of communication are discussed. Also, major differences in every day and business language between the Swedish and Finnish-Swedish are taken up. Doing business in the Nordic dimension is also discussed.

Teaching and learning methods

The course comprises of 32 contact hours realised as four weekly lessons over a period of eight weeks or two to four lessons per week over one semester. The students are required to work independently with preparatory tasks for at least two hours per week. The written and oral course assignments will require 48 hours of work.

The students compile a portfolio with a Europass Language Passport during the course. They write their language learning history and prepare a dossier of language samples.

Inquiry learning is implemented and the students work independently and in teams when preparing for the contact lessons. During the lessons the students work mostly in teams practising, presenting and discussing their work. There will also be teacher lead activities and grammar activities based on the students' language needs.

Lessons 32 h
Distance work 48 h
The assessment of one's own learning 1 h

Recognition of prior learning (RPL)

Recognition of prior learning (RPL) is observed on the course according to separate instructions.

Customer-Oriented Sales 1

Code: PSS1LC0011
Extent: 6 cr (162 h)
Timing: 1st semester
Language: English
Level: Basic studies
Type: Compulsory

Starting level and linkage with other courses

No prerequisites
Part of study module Production and Sales of Services

Learning outcomes

Upon successful completion of the course, the students

- have sales skills based on customer needs
- develop a positive attitude toward sales
- identify a service and sales process through practical implementations as well as through theory
- create and price safe and economic services based on customer needs
- are aware of the risks involved in projects and services
- develop ideas further into a concrete form
- collect customer-feedback

Course contents

- Sales skills
- Operational environment
- Generation of ideas including competitive elements

Cooperation with the business community

Learning objectives will be reached through real-life projects.

International dimension

This course is a part of an international degree programme with international students, staff and projects.

Teaching and learning methods

Inquiry learning
The assessment of one's own learning 1 h

Recognition of prior learning (RPL)

Recognition of prior learning (RPL) is observed on the course according to separate instructions.

Assessment criteria

The course is evaluated on scale 1 to 5. The assessment criteria is presented on scale 1 - 3 - 5.

Components	1 (40%)	3 (70%)	5 (90%)
Knowledge	The student can identify, list and combine the customer needs, sales process and different sales tools.	The student can describe the underlying needs for goods and services, can define a sales process to a given sales case. The student can link the key theoretical concepts to the practical task to present the big picture.	The student uses and combines different approaches to sales depending on the customer need. Student can conduct a research and analyse the results to find the customer needs and to develop goods and services with an appropriate pricing strategy.
Skills	With great difficulty and under strict supervision, can apply a sales process on a given sales project.	The student can collect, partly analyze and partly use relevant research findings to create goods and services and can price them appropriately based on customer needs at a beginner's level.	The student can independently conduct a research, analyze and use relevant research findings to create goods and services and sell them at a professional level and shows good communication and negotiation skills.
Competence	With great difficulty and under strict supervision, the student can partly work with a client company in a team. S/he poorly apply problem/need identification and solving, analysis and projects. S/he can conduct qualitative research in sales.	The student can work with a client company in a team. S/he can apply problem identification, analysis and solving to sales projects. S/he can conduct qualitative research in sales.	The student can work very professionally with a client company in a team. S/he can fully apply problem identification, analysis and solving to sales projects. S/he can conduct qualitative research in sales at a highly professional level.

Assessment components and their respective weights

Students will be assessed in all three component (knowledge, skills and competence) areas by one or more of the tools below:

Assignments, exams, reports, performance in projects, self and peer assessment, portfolio 90%

Presence at lectures and workshops 10%

The assessment of one's own learning does not influence the grade. The assignment is the same for all courses/modules and the answers will also be used for course/module development. The assignment is completed online in WinhaOpaali.

Customer-Oriented Sales 2

Code: PSS1LC0012
Extent: 6cr (162h)
Timing: 2nd semester
Language: English
Level: Basic studies
Type: Compulsory

Starting level and linkage with other courses

Customer Oriented Sales 1
Part of study module Production and Sales of Services

Learning outcomes

Upon successful completion of the course, the students

- understand concept of international sales
- familiar with the internationalization theories
- can use the relevant research tools and methods to create sales leads
- can analyse the market entry modes and select the appropriate mode for a given company/product/service
- create an action plan for an international sales project
- are aware of the risks involved in international markets

Course contents

- SWOT analysis
- Market analysis (PESTEL)
- Internationalisation theories
- Market entry modes

Cooperation with the business community

Learning objectives will be reached through FIRMAROCK project

International dimension

This course is a part of an international degree programme with international students, staff and projects.

Responsible Self-Management 1

Code: SCS1LC0011

Extent: 3 cr (81h)

Timing: 1st semester

Language: English

Level: Basic studies

Type: Compulsory

Starting level and linkage with other courses

No prerequisites. The course is part of the study module Social and Collaboration Skills

Learning outcomes

Upon completion of the course, the student

- is self-aware and has self-management skills
- knows how to organize his/her time and workload
- acts in a responsible way in the learning environment
- works productively as part of a team
- gives and receives feedback in a constructive way
- adapts to inquiry learning in the studies
- practices self-assessment and peer assessment

Course contents

- Study information
- Portfolio
- Tools for self-awareness, reflection and assessment
- Project management
- Time management
- Team work

Cooperation with the business community

Learning objectives will be reached through projects commissioned by the business community.

Teaching and learning methods

Inquiry learning, developmental portfolio, lectures, workshops, discussion, debate, presentation sessions.

Global Business Opportunities

Code: OPE2LC002
Extent: 6 cr (162 h)
Timing: 3rd and 4th semester
Language: English
Level: Professional studies
Type: Compulsory

Starting level and linkage with other courses

Prerequisites: Business Studies in a Global Context

Learning outcomes

Upon successful completion of the course, the student

- is able to operate in an international environment
- is able to contact local and global actors
- is able to follow changes and trends taking place in the operational environment
- has an understanding for research approaches
- chooses relevant research and development methods and uses them correctly
- is able to critically assess his/her own knowledge, competences, skills and actions in business situation

Course contents

- Business networking and acting in an international environment
- Analyses of international operational environment at micro and macro level
- Research methods

Cooperation with the business community

Learning objectives will be reached through real-life projects commissioned by businesses/organisations.

Teaching and learning methods

Inquiry learning

Organisational Development Leadership and Management 1

Code: SCS2LC0021
Extent: 3 cr (81 h)
Timing: 3rd semester
Language: English
Level: Professional studies
Type: Compulsory

Starting level and linkage with other courses

First year studies

Learning outcomes

The course will provide basic knowledge about human behaviour and human resources in working organisations. Human resource management (HRM) provides and introduction to staffing and maintenance, development and rewarding of human resources. This course will continue in spring with leadership and management contents.

Upon successful completion of the course, the student

- understands the basic knowledge about human behaviour and human resources in enterprises
- understands the human resources and HRM as a significant asset for an enterprise
- is aware of the developments in HRM
- can differentiate between different models

Course contents

- Understanding and managing organisational behaviour
- Fundamentals of HRM: HR planning, job design, recruitment and selection, training and education, rewarding and motivation, terms and conditions of employment.

Teaching and learning methods

Course will run with contact hours, classroom activities and assignments. Students are responsible for reading the literature themselves and come to the classes prepared. Hiring and motivating will be practiced as a classroom activity. The assessment of one's own learning 1 h

Recognition of prior learning (RPL)

Recognition of prior learning (RPL) is granted according to HAAGA-HELIA's instructions.

Assessment criteria

The course is evaluated on scale 1 to 5. The assessment criteria is presented on scale 1 to 3.

Components	1 (40%)	3 (70%)	5 (90%)
Knowledge	The student can identify, list and combine the relevant theories on organizational development, leadership and development.	The student can describe the relevant organizational development and leadership concepts and apply them to new contexts. The student can link the key theoretical concepts to the practical task to present the big picture.	The student uses and combines different organisational theories to construct own models. Student is aware of other views of the knowledge. His/her use of theory and specific terminology is very accurate. Student uses findings to compare different organisational theories and viewpoints.
Skills	With difficulty and under strict supervision, the student partly collect, analyze and partly use relevant findings to create and work within teams at a beginner's level.	The student can collect, partly analyze and use relevant research findings to create guidelines for a client at a beginner's level. In addition student can form functioning teams and contribute to them.	The student can independently conduct a research, analyze and use relevant research findings to help a client to develop the organization. Student has professional approach, shows good management and leadership skills, take initiative, act responsibly and always ready to help others in any project.
Competence	With great difficulty and under strict supervision, the student can partly work with a client company in a team. S/he poorly apply problem identification and solving skills in projects. S/he can conduct research in organizational development.	The student can work with a client company in a team. S/he can apply problem identification, analysis and solving skills to projects. S/he can conduct research on organizational development and team dynamics.	The student can work very professionally with a client company in a team. S/he can fully apply problem identification, analysis and solving skills to projects. S/he can identify and apply a relevant research method for a given project at a highly professional level.

Assessment components and their respective weights

Students will be assessed in all three component (knowledge, skills and competence) areas by one or more of the tools below:

Assignments, exams, reports, performance in projects, self and peer assessment, portfolio 90%
 Presence at lectures and workshops 10%

The assessment of one's own learning does not influence the grade. The assignment is the same for all courses/modules and the answers will also be used for course/module development. The assignment is completed online in WinhaOpaali.

 Cost Accounting

Components	1 (40%)	3 (70%)	5 (90%)
Knowledge	The student can identify, list and combine the main theoretical concepts within project management, business law, management accounting and marketing. The student can complete calculations in at	The student can describe the relevant concepts within the course content and apply them to new contexts. The student can link the key theoretical concepts to the practical task to present the big picture. The student can somewhat independently complete calculations in at least four of the following areas: indices, currencies, interest rates, compound interest and loans	The student uses and combines different brand theories to present own models. Student is aware of other views of the knowledge. His/her use of theory and specific terminology is very accurate. S/he uses findings to compare different theories and viewpoints. The student manages all the five areas: indices,

	least two of the following areas: indices, currencies, interest rates, compound interest and loans		currencies, interest rates, compound interest and loans.
Skills	With great difficulty and under strict supervision, the student partly collect, poorly analyze and partly use relevant research findings to create and implement project plans for a client company at a beginner's level.	The student can collect, partly analyze and partly use relevant research findings to create and implement project plans for a client company at a beginner's level. The student can somewhat independently choose the right methods for calculating and collecting needed information.	The student can collect, analyze and use relevant research findings to create and implement project plans for a client company at a high professional level. The student is able to independently choose the right methods for calculations and presentations. Furthermore, the student can make accurate decisions for action based on the results of calculations and presentations.
Competence	With great difficulty and under strict supervision, the student can partly work with a client company in a team. S/he poorly apply problem identification, analysis and solving to projects.	The student can work with a client company in a team. S/he can apply problem identification, analysis and solving to projects.	The student can work very professionally with a client company in a team. S/he can fully apply problem identification, analysis and solving to projects.

Assessment components and their respective weights

Project deliverables (portfolio, learning diary, self and peer assessment) 70%

Other assignments 30%

Math part assessment: Two written examinations 80% Assignments and activity 20%

The assessment of one's own learning does not influence the grade. The assignment is the same for all courses/modules and the answers will also be used for course/module development. The assignment is completed online in WinhaOpaali.

Developing Business Skills 2

Code: BES1LC0012
Extent: 6 cr (156h)
Timing: 2nd semester
Language: English
Level: Basic studies
Type: Compulsory

Starting level and linkage with other courses

Student has completed Developing Business Skills 1. The course is part of the study module Business and Entrepreneurial Skills. The course is divided in two parts: Project Management (Chrysoula Skodra) and Accounting (Kalle Riih ) with 50% weight each one on the final course grade.

Learning outcomes

Upon successful completion the student should be able to:

- understand the methodology of project management
- apply project management skills to international projects
- create project plans
- understand revenue logic
- understand business processes
- create business plans

Course contents

- Project Management methods and tools
- Accounting

Cooperation with the business community

Learning objectives will be reached through project work, as well as group assignments related to the project.

International dimension

This course is a part of an international degree programme with international students, teachers, commissioners.

Teaching and learning methods

Inquiry learning, lectures, guest lectures, independent studies, project work, individual assignments
The assessment of one's own learning 1 h

Recognition of prior learning (RPL)

Recognition of prior learning (RPL) is observed on the course according to separate instructions.

Accounting literature:

Atkinson et al. (2012): Management Accounting. Information for Decision-Making and Strategy Execution. 6th edition. Pearson Education Limited.

Atrill, P. and McLaney, E. (2011): Accounting and Finance for Non-Specialists. 7th edition. Pearson Education Limited.

Any book with the title “Management Accounting” or “Cost Accounting is suitable for the course.

Assessment criteria

The course is evaluated on a scale from 1 to 5. Below are the requirements for grades 1,3,5.

Components	1 (40%)	3 (70%)	5 (90%)
Knowledge	The student has a limited understanding of project management and accounting in a global context.	The student has an adequate understanding of project management and accounting in a global context.	The student has an advanced understanding of project management and accounting in a global context.
Skills	The student follows project work and classroom activities with difficulty and under supervision. The student lacks sufficient skills in project management and accounting in a global context.	The student performs well in project work and classroom activities within a team and independently. The student demonstrates satisfactory skills in project management and accounting in a global context.	The student accomplishes project work and classroom activities with strong initiative and leadership. The student demonstrates strong skills in project management and accounting in a global context.
Competences	<p>The student is able to apply the knowledge and skills of international project management and accounting at a minimal professional level required in worklife.</p> <p>The learning assignments, project reports and deliverables meet the minimal requirements of instructors.</p>	<p>The student is able to apply the knowledge and skills of international project management and accounting at a satisfactory level required in worklife.</p> <p>The learning assignments, project reports and deliverables are written in a adequate way according to HAAGA-HELIA guidelines.</p>	<p>The student is able to apply the knowledge and of international project management and accounting at a highly professional level required in worklife.</p> <p>The learning assignments, project reports and deliverables are written in a professional way according to HAAGA-HELIA guidelines.</p>

Assessment components and their respective weights

Marketing

50% project plan, report and deliverables

30% assignments

20% active participation

Accounting

50% business plan (incl. profitability & cash flow analyses)

30% project tasks regarding budgets and other financial analyses

20% active participation

The assessment of one’s own learning does not influence the grade. The assignment is the same for all courses/modules and the answers will also be used for course/module development. The assignment is completed online in WinhaOpaali.

Microsoft Dynamics NAV

Code: BES2LC0021
Extent: 3 cr (81h)
Timing: 3rd semester
Language: English
Level: Professional studies
Type: compulsory

Starting level and linkage with other courses

The students should have basic understanding of financial accounting and management accounting and understanding of the main operative functions in companies.

Learning outcomes

The objectives are that students

- get familiar with one ERP system, Microsoft Dynamics NAV, its concepts and advantages it gives to companies
- are able to use the elementary ERP functions the system provides
- understand the key concepts related to ERP and understand the linkage between business processes and ERP

Course contents

The following aspects are in the focus:

- key business processes,
- key concepts: ERP, business functions, business strategy and process management
- NAV exercises: UI and logistic processes in particular

Teaching and learning methods

Lectures and practical NAV exercises
Individual and group assignments
The assessment of one's own learning 1 h

Recognition of prior learning (RPL)

Recognition of prior learning (RPL) is observed on the course individually case by case.

Teacher responsible

Foreign Trade

Code: BES2LC0029
Extent: 3 cr (81h)
Timing: 4th semester
Language: English
Level: Professional studies
Type: compulsory

Starting level and linkage with other courses

No prerequisites

Learning outcomes

Upon successful completion of this course, the student

- has tools to analyse whether or not a company should go international and has understanding of the basic macroeconomic factors
- knows what strategic market entry modes there are in company's usage and is able to analyze and decide a suitable entry mode for a specific organization
- is able to find information and use that information to facilitate running export functions in a company. This section includes among other things contract law and risk management (insurances and payments in particular) and may include other operational level aspects such as required documentation in customs etc.

Course contents

- This course is built around a question: what is the most suitable market entry mode for a specific company
- The course maybe facilitated by the following theory building blocks having strategic angle: a) why going international, b) cultural, political, legal, economic environment, international financing aspects c) foreign trade theories d) global strategy, structure and implementation. The topics may vary from course to course depending on the project needs
- The course may be spiced with the following subjects that facilitate to launch the above mentioned entry mode strategies in every day operations including the following non-exclusive list of subjects: contracts and contract law, risk management: payment terms, delivery terms, insurances.

Cooperation with the business community

This course is typically tightly connected to a project with one or several companies.

S/he poorly applies problem identification, analysis and solving to branding projects.	The student can work with a client company in a team. S/he can apply problem identification, analysis and solving to branding projects.	The student can work very professionally with a client company in a team. S/he can fully apply problem identification, analysis and solving to branding projects.

Assessment components and their respective weights

40% Research and development project report

30% Project process

30% Work shop participation and activity

The assessment of one's own learning does not influence the grade. The assignment is the same for all courses/modules and the answers will also be used for course/module development. The assignment is completed online in WinhaOpaali.

Research Methods

Code: BES2LC0037
Extent: 3cr (81h)
Timing: 5th semester
Language: English
Level: Professional Studies
Type: Compulsory

Starting level and linkage with other courses

Student has completed managing business processes and global Business Opportunities. The course is part of a module called Developing Business Processes.

Learning outcomes

Upon completion of the course, the student is able to

- understand the significance of qualitative research
- plan and design qualitative research projects
- apply problem identification, analysis and solving methods
- collect and analyze qualitative data for different cases
- report qualitative research results

Course contents

- Planning and implementing a research project
- Research design
- Research approach and methods to study business operations
- Ethical and practical principles for research in operational practices
- Information sources and referencing
- The overall research process

Cooperation with the business community

Possible guest lecturers from different companies.

International dimension

Possible guest lecturers from international companies. International learning materials. international research projects

Teaching and learning methods

Tutorials 12 h
Lectures and workshops 24 h
Independent study and teamwork 44 h
The assessment of one's own learning 1 h

Recognition of prior learning (RPL)

Recognition of prior learning (RPL) is observed on the course according to separate instructions.

Assessment criteria

The course is evaluated on scale 1 to 5. The assessment criteria is presented on scale 1 - 3 - 5.

Components	1 (40%)	3 (70%)	5 (90%)
Knowledge	The student can identify, list and combine the main research approaches.	The student can apply relevant research methods. The student can link the key research methods to practical task to be solved.	The student uses and combines different research approaches to design and implement research. Student is aware of other views of the knowledge. His/her use of research theory and specific terminology is very accurate. S/he uses findings to compare different theories and viewpoints.
Skills	With great difficulty and under strict supervision, the student partly plan, collect, poorly analyze and partly use relevant research findings to suggest solution for a client company at a beginner’s level.	The student can design, collect, partly analyze and partly use relevant research findings to create solution for a client company at a beginner’s level.	The student can design, collect, analyze and use relevant research findings to create solutions for a client company at a high professional level.
Competence	With great difficulty and under strict supervision, the student can partly work on research with a client company in a team. S/he poorly applies research design implementation and results analysis. S/he can conduct basic qualitative research.	The student can work with a client company in a team. S/he can apply problem identification, research design and implementation. S/he can conduct qualitative research.	The student can work very professionally with a client company in a team. S/he can fully apply problem identification, analysis and solving. S/he can conduct qualitative research in projects at a highly professional level.

Assessment components and their respective weights

Tutorial performance 40%

Personal assignments 20%

Presence at lectures and workshops 10%

Examination 30%

The assessment of one’s own learning does not influence the grade. The assignment is the same for all courses/modules and the answers will also be used for course/module development. The assignment is completed online in WinhaOpaali.

Business Operating Models in Cultural Industries

Code: BES4PO0021
Extent: 3cr (81h)
Timing: 3rd semester
Language: English
Level: Professional studies
Type: Compulsory

Starting level and linkage with other courses

Second-level studies, accepted into the Culture Export Management specialisation programme.

Learning outcomes

Upon successful completion the student should be able to:

- research and identify the variety and complexity of cultural industries
- understand business operating models in various cultural industries
- research global trends and identify their impact in the operating models of cultural industries
- understand and apply theory and models of the experience economy

Course contents

- Definition of cultural and creative industries
- Market research in cultural and creative industries
- Business models in cultural and creative industries
- Experience Economy theory and models

Cooperation with the business community

Key guest lecturers from cultural and arts organisations and the creative industries.

International dimension

Lecturer and guest lecturers with an international background and from international companies. International students participating in international projects.

Teaching and learning methods

Lectures, guest lectures and organisational visits 18h
Project-based learning and teamwork 30h
Independent study and inquiry-learning 32h
The assessment of one's own learning 1 h

Recognition of prior learning (RPL)

Recognition of prior learning (RPL) is observed on the course according to separate instructions.

Business Intelligence

Code: OPE4PO042
Extent: 6 cr (162 h)
Timing: 3rd and 4th semester
Language: English
Level: Professional studies
Type: Elective

Starting level and linkage with other courses

Prerequisites: ERP or a similar course, SAP as a Management Tool or similar course

Learning outcomes

Upon successful completion of this course, the student

- understands the trends that are ongoing in BI business and technology fields
- understands the relevance of business intelligence for an enterprise
- is able to use SAP BI software modules
- is able to analyse BI information and take actions in a competitive situation on the market place (ref. game)
- is able to contribute to a BI development process at an enterprise

Course contents

- Main BI trends since mid 70's
- Drivers for BI
- BI technology from a layered perspective (logical BI architecture)
- Tools & technologies: DSS, GDS, DMS, digital dashboards, scorecards, OLAP, data warehousing, data mining, spreadsheets, CRM, ERP, SOA, Web services, text analytics, RSS, XML, XMLA, Xquery
- External BI versus Internal BI
- Enterprise specific BI strategy and definition, internal stakeholders, support functions
- SAP ERP as a tool for BI, SAP Business Objects as a tool for BI3
- Strategy game

Cooperation with the business community

Assessment criteria

The course is evaluated on scale 1 to 5. The assessment criteria is presented on scale 1 - 3 - 5.

Components	1 (40%)	3 (70%)	5 (90%)
Knowledge	The student is somewhat familiar with service design theories and has a basic command of the terminology.	The student has a professional command of service design theories and terminology.	The student has a professional command of service design theories and terminology, and is able to apply them in practice.
Skills	The student is able to encounter customers, and has an elementary command of necessary service skills and attitude.	The student has positive impact in customer encounters and is able to develop personal service skills and attitude.	The student has positive impact in customer encounters and is able to coach others in developing personal service skills and attitude.
Competence	The student knows how to develop services processes.	The student is able to actively take part in the service development process.	The student is able to lead service development process with good results.

Assessment components and their respective weights

Knowledge 20%
 Competence 40%
 Skills 40%

The assessment of one's own learning does not influence the grade. The assignment is the same for all courses/modules and the answers will also be used for course/module development. The assignment is completed online in WinhaOpaali.

Innovation Challenge

Code: PSS4PO042

Extent: 6 cr (162)

Timing: 3rd, 4th, 5th or 6th semester

Language: English

Level: Professional studies

Type: Elective

Learning outcomes

After completing this course student is able to

- Create new ideas and develop them further into services, products and concepts
- Listen to customer's needs
- Choose and use tools and methods needed in the development work
- Adopt lean working method and risk taking attitude
- Sell and present own idea in business manner
- Work in heterogeneous teams
- Think critically

Course contents

- Service development methods
- Ideation methods
- Pitching
- Business models
- Customer understanding
- Lean methods

Cooperation with the business community

The course is always based on business case and aims at solving real business challenge and proposes a solution for customer's problem.

Teaching and learning method

The course gathers together and mixes different degree programme students and teachers in HAAGA-HELIA. The total amount of students will be approximately 150. The course consists of a two day intensive camp, work in teams and consultations as well as pitching sessions. Students will work in heterogenous teams and innovate solutions for the partner company. Teams will be competing and the best ideas and solutions will be developed further.

- Intensive camp in Pasila in September: tools for working and starting the actual work in teams
- Working in heterogeneous teams, consultations
- One day intensive camp in October: practicing pitching and first round of presentations
- One day intensive camp in November: final pitching

The assessment of one's own learning 1 h

E-Business

Code: PSS4PO0041

Extent: 6 cr (162 h)/ 9 cr (243 h) / 12 cr (324 h)

Timing: 6th semester

Language: English

Level: Professional Studies

Type: Elective

Starting level and linkage with other courses

Student has completed Managing Business Processes and Global Business Opportunities.

Also pre-knowledge of basic ICT-skills is needed, some graphics editing program and web design skills are a merit

Learning outcomes

upon completion of the course, student

- understands the concept of e-business and its position in overall business planning (part 1)
- knows current trends and factors that affect and define the future of e-business (part 1)
- understands how the Internet influences industry structure and understands the key components of e-commerce business models (part 1)
- knows general e-marketing concepts and models (part 1)
- knows basic online marketing communications strategies (part 1)
- understands issues related to online security, payment, laws and regulations (part 1)
- is able to describe measurements used in evaluating online business performance (part 1)
- knows the infrastructure and technology behind e-business (part 2)
- understands the process of building an e-commerce website and factors to be considered when selecting the online services (part 2)
- understands the role supply chains have in doing e-business (part 2)
- has a solid knowledge of different e-business channels and their possibilities and can evaluate the suitability of these channels in different business situations and to different target groups (part 3)
- can create an e-business plan to a company using the channels best suited to the case company, including issues of security, payment, regulations and measurement (part 3)

Course contents

The course consists of three parts: The first part (6 cu) concentrates on basic concepts and strategies behind ebusiness and enarketing, issues of online security and payment and laws and rules that regulate ebusiness. After completing the first part, students may continue with either part two (3 cu) or both parts two and three (3 cu).

- Part one (6 cu): Doing e-business
 - Basic concepts and definitions
 - Current trends, future opportunities
 - E-commerce business models
 - Revenue models
 - e-marketing concepts and models
 - Online marketing communications
 - Security and payment
 - Laws, regulations, rules, ethics
 - Measurements and followup
- Part two (3 cu): Technical issues and channel strategies
 - Infrastructure and technology
 - Building an e-commerce website
 - Supply chain management
- Part three (3 cu): Development. During this part of the course an e-business plan is composed and completed. The student needs to find a commissioner (a real company) for the work.

Cooperation with the business community

Real life business cases in parts 1 and 2, a commissioner (case company) is needed for part 3.

International dimension

International learning materials.
 Also international case company whenever possible.

Teaching and learning methods

Individual or pair work on assignments, group discussions, process writing according to feedback provided along the course. The course will be completed online. The assessment of one's own learning (1 h).

Recognition of prior learning (RPL)

Recognition of prior learning (RPL) is observed on the course according to separate instructions.

Assessment criteria

Components	1 (40 %)	3 (70 %)	5 (90 %)
Knowledge	The students can identify, at least one area in e-business and its benefits to a company	The student knows several different areas in e-business and can apply their features to the benefit for a company	The student knows all different areas in e-business and their benefits and flaws and can analytically apply the in a way that is best suited for the company's strategy

Skills	Can use the basic tools in the platform / channel s/he has chosen.	Can use some tools in the platform / channel s/he has chosen.	Can use several tools in the platform / channel s/he has chosen and also evaluate the pros and cons in her/his choices
Competence	With great difficulty and under strict supervision, the student can work with the assignments. S/he poorly applies the theoretical background to the text and somewhat fails to document her/his work process	The student can work with the assignments quite professionally S/he can somewhat apply the theoretical background to the work. S/he can document her/his working process	The student can work with the assignments very professionally. S/he can fully apply theoretical background to the work. S/he can document her/his working process and analyze & evaluate the different choices at a highly professional level.

Assessment components and their respective weights

100% Development project report

The assessment of one's own learning does not influence the grade. The assignment is the same for all courses/modules and the answers will also be used for course/module development. The assignment is completed online in WinhaOpaali.

Managing Sales

Code: PSS4PO0025

Extent: 6cr (+3+3) (162h+81h+81h)

Timing: 5th, 6th semesters

Language: English

Level: Professional studies

Type: Elective

Starting level and linkage with other courses

Students have completed Customer Oriented Sales 1 and 2
The course is one of the elective professional courses.

Learning outcomes

Upon successful completion of the course, the students

- can plan, develop and manage a sales process on a real-life project
- can evaluate and develop the sales process of a real-life project
- can identify and develop solutions to customer needs
- can lead sales teams
- can develop and use suitable sales management tools for a specific project
- can build networks and create partnerships in creating sales and services

Course contents

The course has three components, starting with Managing the Sales Process, after which students can decide whether to continue with one or both of the other components.

- Managing the Sales Process (6 cr)
- Leading Sales Teams (3 cr)
- Sales Management Tools (3 cr)

Cooperation with the business community

Learning objectives will be reached through real-life projects.

International dimension

This course is a part of an international degree programme with international students, staff and projects.

Teaching and learning methods

Inquiry learning, real-life projects, workshops, independent studies, tutorials

The assessment of one's own learning 1 h

Recognition of prior learning (RPL)

Recognition of prior learning (RPL) is observed on the course according to separate instructions.

Assessment criteria

The course is evaluated on scale 1 to 5. The assessment criteria is presented on scale 1 - 3 - 5.

Components	1 (40%)	3 (70%)	5 (90%)
Knowledge	The student can identify and describe the relevant Sales Management theories with guidance.	The student can identify and use the relevant Sales Management theories to evaluate a sales process with little guidance.	The student can use and combine different sales management theories to evaluate and develop sales processes independently.
Skills	The student is able to work as a member of a sales team and contribute to the overall results with guidance	The student can independently work as a team member and show initiative to develop the process in reaching the goal efficiently.	The student can plan a sales process for a given project, lead a sales team and use relevant tools to reach the goal in a very independent and creative way.
Competence	The student displays some degree of work life orientation and has attitudes at a minimal professional level	The student displays a broad range of work-life related competences, behaves and has attitudes at a standard professional level	The student displays a very large range of work-life oriented competences, including leadership, behaves and has attitudes at a highly professional level

Assessment components and their respective weights

Students will be assessed in all three component (knowledge, skills and competence) areas by one or more of the tools below:

Assignments, reports, performance in projects, self and peer assessment, portfolio

Presence at lectures and workshops, team work

The assessment of one's own learning does not influence the grade. The assignment is the same for all courses/modules and the answers will also be used for course/module development. The assignment is completed online in WinhaOpaali.

International Work Placement

Code: PLA6PO110

Extent: 30 ECTS (100 days)

Timing: 4th semester or as agreed

Language: according to the country and organisation

Level: Work Placement

Type: Compulsory

Starting level and linkage with other courses

Completion of 120 ECTS.

Learning outcomes

The student

- learns to develop his/her professional skills and to link his/her academic studies with real-life work practices
- is able to evaluate and develop his/her workplace environment

Work placement is an integral part of polytechnic studies and students can apply for work placement 1 after they have completed 120 ECTS. The placement has to be approved in advance by the work placement co-ordinator. Students have to be registered as attendants during the work placement.

Course contents

Work placement period is normally uninterrupted. In case a student wants to complete his/her work placement in two parts. Work placement can be full-time or part-time work with a minimum of 20 h/week. A student has to make a written application (work placement notification) to the work placement coordinator. Work placement comprises the following:

- Participation in a placement info meeting before work placement.
- Contact with the work placement advisor (lecturer) before and during the placement.
- Placement period in an approved company or organization. Keeping a learning log.
- Submitting a written or an oral placement report with the required attachments. Alternatively, writing HH work placement blog and submitting the required documents to the advisor.
- Giving feedback on the learning platform or submitting a Work Placement Abroad –student report

Work placement information meetings are arranged twice a month and the dates are announced on MyNet and info TV.

Cooperating with the business community

The course is realized in work life within a business community.

International dimension

Work placement is performed in an international setting where the student works and communicates with other nationalities in an international setting outside Finland or his/her home country.

Teaching and learning methods

Working at the place of work and submitting reports.

Recognition of prior learning (RPL)

Recognition of prior learning (RPL) is observed on the course according to separate instructions.

Assessment Criteria

Pass/Fail

Bachelor's Thesis

Code: THE7LC004
Extent: 15 ECTS (405 h)
Timing: 5th-7th semester
Language: English
Level: Thesis
Type: Compulsory

Starting level and linkage with other courses

Most basic and professional studied must be completed, including the Research Work study unit.

Learning outcomes

The student will demonstrate an ability to work and solve problems independently. The purpose is to enhance the student's information gathering skills and ability to apply information to solving problems related to business economics.

Course contents

The student should have completed enough studies to fully focus on the thesis writing process. Successful completion of the thesis writing process is proof of the student's problem-solving skills and ability to work independently in a disciplined manner. Ideally, the thesis is a professional study based on an actual business environment. It also has the potential for bringing forward new information in the given field of research.

Preparation of a subject analysis in the Research Work study unit. Preparation of a research plan, presentation of project papers and interim reports, completion of the report, writing an abstract, maturity examination.

Teaching and learning methods

After writing an acceptable subject analysis in the Research Work study unit, the student is assigned a tutor and a secondary tutor. The students present their work in three times in a seminar group. The first is a short presentation of introduction, research problem, aim and restraints and a preliminary bibliography. In the second seminar the theoretical part and a plan for the empirical research (questionnaire, interview frame) is presented. At the last meeting the student presents the analysis and results. The students attend all the meetings and act three times as an opponent. Detailed instructions are given by the thesis coordinators.

Teacher responsible

Eva Holmberg

Course materials

All the HAAGA-HELIA UAS thesis process materials found at MyNet

Assessment criteria

An accepted thesis writing process is evaluated by the tutor and secondary tutor on a scale of 1 to 5.

<http://mynet.haaga-helia.fi/en/studies/thesis-bachelor/assessment/Pages/default.aspx>

Maturity Examination

Code: OPI7LC003

Extent: part of the thesis process

Timing: after presentation/submission of the thesis

Language: Finnish, Swedish or English

Level: Thesis

Type: compulsory

Starting level and linkage with other courses

Before graduating, the student is expected to demonstrate his/her expertise in the area of his/her thesis as well as his/her language skills. This is done by means of the maturity test. The student can sign up for the maturity test once his/her thesis has been successfully presented or submitted for assessment.

The student writes the maturity test in Finnish, Swedish or English and is expected to demonstrate a solid command of this language as required for earning a Bachelor's degree. The language of the maturity test is determined as follows:

- Students who completed comprehensive school or upper secondary school in Finland and completed studies in Finnish or Swedish as a mother tongue: the student writes the maturity test in the language studied as mother tongue at comprehensive school or upper secondary school, regardless of the language of the student's degree programme.
- Students who completed comprehensive school or upper secondary school with mother-tongue studies in a language other than Finnish or Swedish, or completed corresponding education abroad: the student writes the maturity test in the language of the degree programme.

Table 1. The language in which the maturity test is written.

Previous mother tongue studies in Finland in	Language of the student's degree programme		
	DPs taught in Finnish	DPs taught in English	DPs taught in Swedish
Finnish	Finnish	Finnish	Finnish
Swedish	Swedish	Swedish	Swedish
Other cases	Finnish	English	Swedish

Learning outcomes

The maturity test is a learning experience allowing the student to build his/her communication skills. The maturity test also allows the student to present and demonstrate his/her competencies through thesis. The student can include the maturity test in his/her portfolio, which can be useful in job seeking.

In the maturity test, the student indicates his/her familiarity with his/her thesis field and also his/her language skills, as set in Section 10 of the Decree on Studies at Universities of Applied Sciences (352/2003). A maturity test written in Finnish or Swedish also demonstrates that the student has a command of this language as statutorily required of employees of public sector organisations in Finland. This is indicated in the student's diploma.

A student who has not who completed comprehensive school or upper secondary school in Finland and has not completed studies in Finnish or Swedish as a mother tongue but successfully completes the maturity test in Finnish or Swedish is deemed to have demonstrated good written and oral skills in this language. This is a sufficient indicator of language skills when applying for Finnish citizenship, for example.

Course contents

The maturity test at HAAGA-HELIA can take the form of an essay, item for a staff newsletter or media release. The maturity test is not an answer to an exam question.

An essay is a text where the writer displays his or her analytical writing skills by discussing and reflecting upon a given topic or issue from different points of view. An essay presents not only facts, but also the writer's own arguments, opinions, evaluations and conclusions. An essay has a heading, lead paragraph, body copy and conclusion. The maturity test written as an essay must not have subheadings, tables or figures.

The length of the maturity test essay is 450–600 words. This is equivalent to a maximum of four handwritten pages, written on a pre-lined sheet of paper, with text written on each line.

A media release or an item for a staff newsletter presents a piece of news. The aim is to provide information on a recent event or some surprising or significant matter of general interest. For example, a news item on the thesis might present the key research results or the novelty value of the thesis for the industry or organisation in question. Such a text proceeds in the form of an inverted pyramid with content placed in order of importance, i.e. the most important points first and the least important ones last. Optimally, only one major news item functions as a spearhead for the rest of the text. The document has a headline, lead paragraph and body copy, and it also indicates from whom further information is available. A media release must also contain the sending organisation's background information.

The length of the maturity test when written as a media release or an item for a staff newsletter is 150–230 words. This equals a maximum of two handwritten pages, written on a pre-lined sheet of paper, with text on each line.

More information on writing the maturity test is provided on HAAGA-HELIA's website, on the thesis pages. <http://mynet.haaga-helia.fi/en/studies/thesis-bachelor/maturity-examination>

Cooperation with the business community

A media release or an item for a staff newsletter integrally involves working life. The student can agree on the publication of such a text with either the commissioning party or HAAGA-HELIA. Newsworthy media releases are published on HAAGA-HELIA's website. The best releases are sent to the media.

Completion procedure

The maturity test is written during an exam re-take session or in some other supervised situation. The student signs up for the maturity test with the thesis supervisor, following the same process as for an ordinary exam. The thesis supervisor provides the student either the essay questions or the guidelines for the staff newsletter or press release. The student chooses the type before the maturity test.

The maturity test can be handwritten or typewritten, depending on the thesis supervisor's decision. If the maturity test is handwritten, it must be clearly legible. Upper and lower case and punctuation must be clearly distinguishable. If the maturity test is typewritten, the computer must not be connected to the web and the automatic language check function must be disabled.

Bringing a memory stick or mobile phone to the maturity test is prohibited. The student has a maximum of three hours to write the maturity test. The thesis supervisor archives the maturity test for six months.

The student's thesis supervisor

Course materials

More information on text types and writing the maturity test is provided on HAAGA-HELIA's website, under the thesis pages. <http://mynet.haaga-helia.fi/en/studies/thesis-bachelor/maturity-examination>

Assessment criteria

The maturity test is assessed as pass/fail as set in HAAGA-HELIA's maturity test assessment criteria. Both the content and language of the maturity test are assessed. The content is assessed by the thesis supervisor and the language by a language teacher. The student receives feedback on his/her performance from both evaluators. A failed maturity test should be retaken.
