| Internationalization:   | Most of the learning takes place in real-life projects for tourism businesses operating internationally. This opens up doors for the students and helps them develop their networks already during the studies. This makes it easier for graduates to find jobs both in Finland and abroad.  |
| Employment opportunities after graduation:                    | The daily work of the students is all about operating in multicultural teams. They are supervised by staff representing several nationalities. The commissions they get from companies familiarise them with topical issues in tourism and different ways of doing business. They can also go an exchange, do work placement abroad and participate in international development projects. |
| Cooperation with working life and with other associates:      | Learning takes place in real-life projects. Every semester the students work for a tourism business on challenges assigned by the company. Learning is work and work is learning.  |

#### Profile of the Degree Programme in Tourism

Bachelors of Hospitality Management have strong professional skills in the following fields:

- Communication Skills in Travel and Tourism
- Tourism Operational Environment

- Production and Sales of Travel and Tourism Services
- Social and Collaboration Skills
- Business and Entrepreneurial Skills

**Communication Skills in Travel and Tourism** is about learning to communicate in a professional way, using appropriate software. Compulsory language studies of Finnish students are made up of English and Swedish, as well as another foreign language whereas international students study English and Finnish. Written communication skills are important but also oral skills are practised a lot as they play an important role in successful tourism business.

**Tourism Operational Environment** stresses the importance of knowing the factors that influence actions and analyses methods necessary to develop destinations and tourism businesses. Students know how to utilise the new opportunities brought about by the economic, legal and social operational environment in a global tourism context.

**Production and Sales of Travel and Tourism Services** comprise the principles of practical sales and service jobs in travel and tourism, customer relationship management and development, as well as the production and development of tourism services. Students manage the opportunities offered by digital media in marketing and sales in the various sectors of travel and tourism.

**Social and Collaboration Skills** mean both self-management and leadership skills that are practised by taking different roles in different projects. Students learn to apply leadership and development theories to enhance operations. The role of networking in tourism business also becomes clear, as well as the need to constantly develop these networks.

**Business and Entrepreneurial Skills** teach the students to understand how tourism businesses and organisations operate. Graduates develop an entrepreneurial attitude and learn to run and develop a profitable business.

With the help of the above-mentioned knowledge, skills and methods the students acquire the most common meta-skills needed in the job market, project management, research and development, coaching, creative problem solving and innovation.

#### Key learning outcomes of the Programme

Choosing a main subject or field of specialisation

Towards the end of the first academic year the students choose their specialisation studies. Those take place in year two, both semesters. The services of the Academic Advisor are readily available, but the students also have a teacher tutor and student tutors at their service throughout the studies. All of these can help students make the right personal choices regarding courses and specialization studies.

The programme offers two specialisation alternatives:

Professional studies in the Degree Programme in Tourism focus on Business Tourism where Sales and Service in Business Tourism takes a central role. The key contents are:

- Customer insight
- · Travel purchasing and selling processes as seen by buyers, suppliers and intermediaries
- Travel Management systems and tools
- Partnerships and networks
- Technology for sales and service

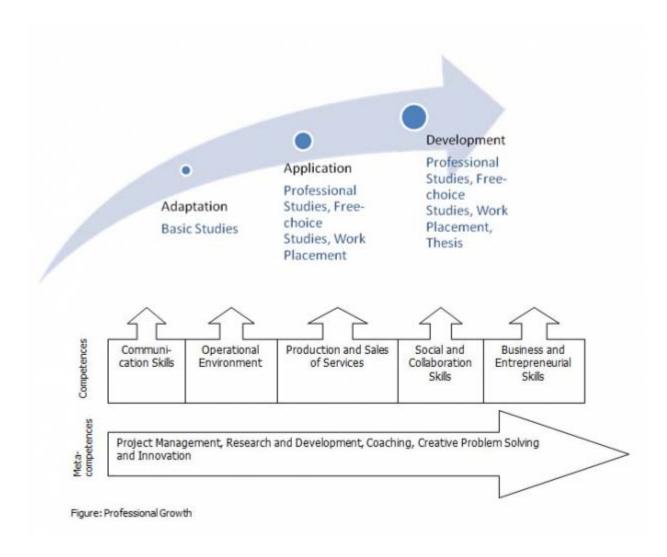

Another specialisation is Event Planning and Management where business-related meetings and other corporate events are highlighted. The key contents are:

- Event planning processEvent management
- Economics of events
- · Impacts of events
- Technology for events

### Professional growth

Students develop their professional skills and the generic meta-competences needed in work life through the following three phases: adaptation, application and development. The competences and skills of the students develop in an integrated way when they work in projects that provide increasing challenge as the studies advance.

All students with Finnish educational background are expected to spend one semester of studies or the work placement period abroad to enhance their preparedness for international challenges.

## Student's professional development tobba

Graduates from Porvoo Campus enter work life with a portfolio consisting of meta-skills and professional competence. Students have a portfolio based on their personal aims and those of the degree programme. The portfolio is built up mainly through work in large research and development projects.

The students' role grows in importance as they move on in studies towards more challenging tasks that increase their knowledge. As studies proceed, assessment follows three criteria levels: adaptation, application and development. After the first year, the students are expected to be involved in more demanding projects. In addition, language studies form an integral part of the competence portfolio and language learning takes place in projects whenever possible. The following are focused on in research and development projects: sales and service skills, renewing business activities, entrepreneurial attitude, and methodological competence required in research and development work. Coaching and leadership skills can be gained by working as supervisor (i.e. team leader, project manager) in projects.

Students can profit from the opportunity offered on Campus to take part in the projects of any other degree programmes in Finnish. Swedish or English. This adds many specialisation possibilities to the personal study plan of an individual student.

#### **Study Modules**

The modules of tourism studies are described in figure 2. The green modules stand for compulsory studies and the blue ones for either elective or free choice studies. Study modules are large, a minimum of 3 credits, and can be divided by three.
