

Learning Camp 1

(Suomenkielinen opintojaksokuvaus sivun alaosaan)

Code: INS1PO101

Scope: 5 ECTS

Timing: 1st semester

Language: English

Curriculum: Porvoo Campus 2017

Module level: Basic studies, level 1

Module type: Compulsory

Starting level and linkage with other modules

The module is a part of basic studies in Porvoo Campus competence-based curriculum. The module advances the following competences: personal goal orientation, understanding of different learning styles, team working and listening skills, agility and professional attitude, global mindset, self-reflection skills and presentation skills and savvy use of digital tools. The module is closely linked with the other learning camps and modules throughout the studies. This module, offered in Semester 1, is part 1 of the upcoming module, offered in Semester 2, with the similar name.

Grade 1

The student is able to set personal goals to be followed and reflected upon incoming camps with guidance. S/he has a rather limited picture of the upcoming studies and her/his ability to work in an international environment. The student has a limited understanding of the Porvoo Campus learning culture and methods. S/he has difficulties in using the basic tools and platforms needed in studies. The student has difficulties with expressing oneself and understanding others. The student has a very limited ability to analyse and reflect upon him/herself as a learner. S/he displays some ability to plan the following semester together with peers and supervisors. The student is able to evaluate earlier plans and make some adjustments only when offered external assistance and support. The student participates in the project planning, implementation and evaluation with a minimal input. The student requires extra support from peers and supervisors in order to complete tasks.

Grade 3

The student is able to set a few personal goals to be followed and reflected upon incoming camps. S/he has a rather good picture of the upcoming studies and is able to work in an international environment. The student understands the Porvoo Campus learning culture and methods rather well. S/he is able to use the basic tools and platforms needed in studies. The student is able to express oneself and understand others. The student is able to analyse and reflect upon him/herself as a learner. S/he is able to plan the following semester together with peers and supervisors. The student is able to evaluate earlier plans and make some adjustments. The student participates in the project planning, implementation and evaluation independently and makes use of the advice available. The student is able to operate when the task and instructions are given.

Grade 5

The student is able to set personal goals to be followed and reflected upon incoming camps. S/he has a clear picture of upcoming studies and working in an international environment. The student understands the Porvoo Campus learning culture and methods. S/he is able to use the basic tools and platforms needed in studies. The student is able to express oneself and understand others. The

student has an excellent ability to analyse and reflect upon him/herself as a learner. S/he is able to plan and contribute towards the following semester together with peers and supervisors. The student is able to evaluate earlier plans and make adjustments. The student participates proactively and with goal-orientation in the project planning, implementation and evaluation. The student is able display a goal-oriented mindset and professional attitude.

Recognising and validating prior learning (RPL)

If students have acquired the required competence in previous work tasks, recreational activities or in other studies, they can show the competence with a demonstration and progress faster through their studies. More information and instructions for recognising and validating prior learning (RPL) are available at [MyNet](#).

Connections to business life

Guest lecturers from the industry, Haaga-Helia Porvoo alumni

Internationality

Possibility to work with international team and international lectures. Possible guest lecturers from international organizations and partner universities. International learning materials.

Contents

- inquiry learning strategies (1st semester)
- setting goals and milestones (1st semester)
- group activities with group dynamics elements (1st semester)
- orientation to ICT-tools and digital platforms of Porvoo Campus (1st and 2nd semester)
- Haaga-Helia guidelines for writing reports (1st semester)
- business etiquette and ethics of Porvoo Campus (1st semester)
- orientation to development methods (2nd semester)
- professional communication (2nd semester)
- academic writing and reporting (2nd semester)
- introduction to specialisation studies (2nd semester)
- personal study coaching (1st and 2nd semester)

Learning methods

All competences are implemented in learning activities jointly with other modules. The methods used in the learning activities are e.g.:

Inquiry learning

Peer-to-peer learning

Tutorials

Debates

Study tours and company visits

Lectures and workshops
Independent study and teamwork
The assessment of one's own learning

Assessment

The assessment methods may include:

Individual assignments
Final deliverables
Exams
Peer assessment
Self-assessment

The self-assessment (through Winha) of one's own learning does not influence the module grade.
The self-assessment and students' feedback to the module will be used for the module development.
The feedback is collected via an electronic form.

Exercises, tests

Learning Camp 1

Tunnus: INS1PO101

Laajuus: 5 op

Ajoitus: 1. lukukausi

Kieli: englanti

OPS: Porvoo Campus 2017

Moduulin taso: perusopinnot, taso 1

Moduulin tyyppi: pakollinen

Lähtötaso ja sidonnaisuudet muihin opintojaksoihin

Moduulilla ei ole lähtötasovaatimuksia. Moduuli on sidoksissa tulevaan Learning Camp 2 -kokonaisuuteen (2. lukukautena) sekä muihin moduuleihin opintojen aikana.

Osaamistavoitteet ja arviointi

Moduulissa kehitetään seuraavia osaamisalueita: itseohjautuvuus, erilaisten oppimistapojen ymmärtäminen, yhteistyötaidot, joustavuus ja ammatillisuus, globaali ajattelutapa, reflektointi- ja esiintymistaidot sekä digitaalisten työvälineiden hallinta.

Arvosana 1

Opiskelija pystyy asettamaan joitain henkilökohtaisia tavoitteita ja refleктоimaan niitä ohjatusti. Hänellä on melko rajoittunut tietämys tulevasta opinnoistaan ja kyvystään työskennellä kansainvälisessä ympäristössä. Opiskelija on sisäistänyt heikosti Porvoo Campuksen oppimiskulttuurin ja -metodit. Hän osaa auttavasti käyttää opinnoissa tarvittavia perustyökaluja ja oppimisalustoja. Hän kykenee ilmaisemaan itseään ja ymmärtämään muita auttavasti. Opiskelijalla on rajoittunut kyky analysoida ja reflektoida itseään oppijana. Hän pystyy jonkin verran suunnittelemaan tulevaa lukukautta yhdessä muiden opiskelijoiden ja ohjaajien kanssa. Opiskelija kykenee arvioimaan aikaisempia suunnitelmia ja tekemään korjauksia ainoastaan kun hän saa ulkopuolista apua ja tukea. Opiskelijan panos projektin suunnitteluun, toteutukseen ja arviointiin on minimaalinen. Opiskelija tarvitsee ylimääräistä tukea muilta opiskelijoilta ja ohjaajilta suorittaakseen tehtäviä.

Arvosana 3

Opiskelija pystyy asettamaan henkilökohtaisia tavoitteita ja refleктоimaan niitä jonkin verran. Hänellä on melko hyvä tietämys tulevasta opinnoistaan ja kyvystään työskennellä kansainvälisessä ympäristössä. Opiskelija on sisäistänyt melko hyvin Porvoo Campuksen oppimiskulttuurin ja -metodit. Hän osaa käyttää opinnoissa tarvittavia perustyökaluja ja oppimisalustoja. Hän kykenee ilmaisemaan itseään ja ymmärtämään muita. Opiskelijalla on kyky analysoida ja reflektoida itseään oppijana. Hän pystyy suunnittelemaan tulevaa lukukautta yhdessä muiden opiskelijoiden ja ohjaajien kanssa. Opiskelija kykenee arvioimaan aikaisempia suunnitelmia ja tekemään joitakin korjauksia. Opiskelija osallistuu itsenäisesti projektin suunnitteluun, toteutukseen ja arviointiin ja käyttää hyödykseen saatavilla olevia neuvoja. Opiskelija pystyy toimimaan saatuaan tehtävän ja ohjeet.

Arvosana 5

Opiskelija pystyy asettamaan henkilökohtaisia tavoitteita ja refleктоimaan niitä. Hänellä on selkeä tietämys tulevasta opinnoistaan ja kyvystään työskennellä kansainvälisessä ympäristössä. Opiskelija

on sisäistänyt Porvoo Campuksen oppimiskulttuurin ja -metodit. Hän osaa käyttää sujuvasti opinnoissa tarvittavia perustyökaluja ja oppimisalustoja. Hän kykenee ilmaisemaan itseään ja ymmärtämään muita erinomaisesti. Opiskelijalla on hyvä kyky analysoida ja reflektoida itseään oppijana. Hän pystyy rakentavasti suunnittelemaan tulevaa lukukautta yhdessä muiden opiskelijoiden ja ohjaajien kanssa. Opiskelija kykenee arvioimaan aikaisempia suunnitelmia ja tekemään tarvittavat korjaukset. Opiskelija osallistuu proaktiivisesti projektin suunnitteluun, toteutukseen ja arviointiin ja käyttää hyödykseen saatavilla olevia neuvoja. Opiskelija on määrätietoinen ja hänellä on ammattimainen asenne.

Aikaisemmin hankitun osaamisen tunnistaminen ja tunnustaminen (AHOT)

Jos opiskelija on saavuttanut vaadittavan osaamisen esimerkiksi aikaisemmissa työtehtävissä, harrastuksissa tai muissa opinnoissa, hän voi osoittaa osaamisensa ja edetä opinnoissa ripeämmin. Katso lisätiedot ja ohjeet aiemmin hankitun osaamisen tunnistamisesta ja tunnustamisesta (AHOT): [MyNet](#).

Työelämäyhteydet

Vierailuluennoitsijat, Haaga-Helia Porvoo alumnit

Kansainvälisyys

Mahdollisuus työskennellä kansainvälisessä tiimissä ja kansainvälisten ohjaajien kanssa. Vierailuluennoitsijoita kansainvälisistä yhteistyökorkeakouluista ja organisaatioista, kansainvälinen oppimateriaali.

Sisältö

- tutkivan ja kehittävän oppimisen strategiat (1. lukukausi)
- tavoitteiden ja virstanpylväiden asettaminen (1. lukukausi)
- toimiminen ryhmissä, ryhmädynamiikkaelementit (1. lukukausi)
- orientoituminen Porvoo Campuksen ICT-työkaluihin ja digitaalisiin alustoihin (1. ja 2. lukukausi)
- Haaga-Helian raportointiohjeet (1. lukukausi)
- Porvoo Campuksen business etiketti ja etiikka (1. lukukausi)
- orientoituminen kehittämismetodeihin (2. lukukausi)
- ammattimainen viestintä (2. lukukausi)
- akateeminen kirjoittaminen ja raportointi (2. lukukausi)
- johdanto erikoistumisopintoihin (2. lukukausi)
- henkilökohtainen omaohjaus (1. ja 2. lukukausi)

Oppimistehtävät

Kaikki kompetenssit opitaan aktiviteeteissä yhdessä muiden moduulien kanssa. Aktiviteeteissä käytössä olevat metodit ovat esimerkiksi:

Tutkiva ja kehittävä oppiminen
Vertaisoppiminen
Tutoriaalit

Väittelyt
Opintomatkat ja yritysvierailut
Luennot ja työpajat
Itsenäinen työskentely ja tiimityö
Oman oppimisen arviointi

Arviointitavat

Käytettävät arviointitavat:

Yksilötehtävät
Lopulliset tuotokset
Tentit
Vertaisarviointi
Itsearviointi

Winhan kautta annettava opintojaksopalautteeseen sisältyvä itsearviointi ei vaikuta moduulin arvosanaan, vaan sitä käytetään ainoastaan moduulin kehittämiseen. Palaute kerätään elektronisesti.

Learning Camp 2

Code: INS1PO102

Scope: 5 ECTS

Timing: 2nd semester

Language: English

Curriculum: Porvoo Campus 2017

Module level: Basic studies, level 1

Module type: Compulsory

Starting level and linkage with other modules

The module is a part of basic studies in Porvoo Campus competence-based curriculum. The module advances the following competences: personal goal orientation, understanding of different learning styles, team working and listening skills, agility and professional attitude, global mindset, self-reflection skills and presentation skills and savvy use of digital tools. The module is closely linked with the other learning camps and modules throughout the studies.

Grade 1

The student is able to set personal goals to be followed and reflected upon incoming camps with guidance. S/he has a rather limited picture of the upcoming studies and her/his ability to work in an international environment. The student has a limited understanding of the Porvoo Campus learning culture and methods. S/he has difficulties in using the basic tools and platforms needed in studies. The student has difficulties with expressing oneself and understanding others. The student has a very limited ability to analyse and reflect upon him/herself as a learner. S/he displays some ability to plan the following semester together with peers and supervisors. The student is able to evaluate earlier plans and make some adjustments only when offered external assistance and support. The student participates in the project planning, implementation and evaluation with a minimal input. The student requires extra support from peers and supervisors in order to complete tasks.

Grade 3

The student is able to set a few personal goals to be followed and reflected upon incoming camps. S/he has a rather good picture of the upcoming studies and is able to work in an international environment. The student understands the Porvoo Campus learning culture and methods rather well. S/he is able to use the basic tools and platforms needed in studies. The student is able to express oneself and understand others. The student is able to analyse and reflect upon him/herself as a learner. S/he is able to plan the following semester together with peers and supervisors. The student is able to evaluate earlier plans and make some adjustments. The student participates in the project planning, implementation and evaluation independently and makes use of the advice available. The student is able to operate when the task and instructions are given.

Grade 5

The student is able to set personal goals to be followed and reflected upon incoming camps. S/he has a clear picture of upcoming studies and working in an international environment. The student understands the Porvoo Campus learning culture and methods. S/he is able to use the basic tools and platforms needed in studies. The student is able to express oneself and understand others. The student has an excellent ability to analyse and reflect upon him/herself as a learner. S/he is able to plan and contribute towards the following semester together with peers and supervisors. The student is able to evaluate earlier plans and make adjustments. The student participates proactively and with

goal-orientation in the project planning, implementation and evaluation. The student is able display a goal-oriented mindset and professional attitude.

Recognising and validating prior learning (RPL)

If students have acquired the required competence in previous work tasks, recreational activities or in other studies, they can show the competence with a demonstration and progress faster through their studies. More information and instructions for recognising and validating prior learning (RPL) are available at [MyNet](#).

Connections to business life

Guest lecturers from the industry, Haaga-Helia Porvoo alumni

Internationality

Possibility to work with international team and international lectures. Possible guest lecturers from international organizations and partner universities. International learning materials.

Contents

- inquiry learning strategies (1st semester)

Aviation Business Basics 1

Code: BUS1AB101

Scope: 5 ECTS

Timing: 1st Semester

Language: English

Curriculum: Porvoo Campus 2017

Module level: Basic studies, level 1

Module type: Compulsory

Starting level and linkage with other modules

The module has no prerequisites. This module is linked with all the level 1 modules of the Campus 2017 curriculum. This module, offered in Semester 1, is part 1 of the upcoming module, offered in Semester 2, with the similar name. The module contents will be implemented through semester projects.

Learning objectives and assessment

The module is a part of basic studies in Porvoo Campus competence-based curriculum and advances the following competences: e.g., understanding profitability, awareness of basic processes and operations in aviation organisations. The module advances also entrepreneurial and business mindset, ability to analyse the operational environment of aviation and savvy use of digital tools. There are also other parallel implementations of this module with the same objectives yet with a different industry specific focus.

Grade 1

The student is aware of the basic processes and operations in organisations. S/he understands the requirements of profitable business at some level and is able to estimate the profitability of operations and products with assistance. S/he is able to choose and use professional ICT tools in planning and estimating business operations when aided and guided by others. The student utilizes reliable sources. The student participates in the project planning, implementation and evaluation with a minimal input. S/he is able to operate when the task and instructions are given and when aided by other students and the supervisors.

Grade 3

The student has a some command on the basic processes and operations in organisations. S/he understands the requirements of profitable business and is able to estimate the profitability of operations and products. S/he is able to choose and use professional ICT tools in planning and estimating business operations. The student utilizes versatile and reliable sources. The student participates in the project planning, implementation and evaluation independently and makes use of the advise available. S/he is able to operate when the task and instructions are given.

Grade 5

The student understands and follows the current economic discussion from versatile, reliable and international sources. S/he has a good command on the basic processes and operations in organisations. The student understands the requirements of profitable business and is able to estimate the profitability of operations and products. S/he is able to choose and use professional ICT tools in planning and estimating business operations. The student utilizes versatile and reliable

international sources. The student participates proactively and with goal-orientation in the project planning, implementation and evaluation. S/he is able display entrepreneurial and business oriented mindset as well as act proactively.

Recognising and validating prior learning (RPL)

Aviation Business Environment 1

Code: OPE1AB101

Scope: 5 ECTS

Timing: 1st semester

Language: English

Curriculum: Porvoo Campus 2017

Module level: Basic studies, level 1

Module type: Compulsory

Starting level and linkage with other modules

The module has no prerequisites. This module is linked with all the level 1 modules of the Campus 2017 curriculum. This module, offered in Semester 1, is part 1 of the upcoming module, offered in Semester 2, with the similar name. The module contents will be implemented through semester projects.

Learning objectives and assessment

The module is a part of basic studies in Porvoo Campus competence-based curriculum and advances the following competences: e.g., understanding of operational environment (e.g. stakeholders and networks) within the aviation industry. Furthermore, applying law and regulations to common situations in aviation. The module advances also value chain understanding, understanding basic functions of macroeconomics and global mindset.

There are also other parallel implementations of this module with the same objectives yet with a different industry specific focus.

Grade 1

The student has some understanding of the concept and the terminology of the operational environment. S/he uses only a few sources and needs assistance to find relevant information. S/he finds it challenging to analyse the operational environment. S/he is able to choose and use some research and development methods as well as digital tools when aided and guided by others. S/he can identify a few stakeholders and networks in both domestic and international markets. The student finds it challenging to work in an international team and/or global context. The student participates in the project planning, implementation and evaluation with a minimal input. The student is able to operate only when the task and instructions are given and when s/he is aided by other students and the supervisors.

Grade 3

The student understands and is able to define the concept and the terminology of the operational environment. S/he is able to search for relevant sources and use them independently. S/he is able to analyse the operational environment by choosing and using research and development methods as well as digital tools. S/he can identify and analyse the core stakeholders and networks in both domestic and international markets. The student is able to work in an international team and/or global context. The student participates in the project planning, implementation and evaluation independently and makes use of the advise available. The student is able to operate when the task and instructions are given.

Grade 5

The student understands and is able to define the concept and the terminology of the operational environment. S/he is able to search for relevant information actively and independently from versatile sources. The student is able to assess the reliability of the sources and use them with skill. S/he is able to analyse the operational environment by choosing and using relevant research and development methods as well as digital tools. S/he can identify and analyse the core stakeholders and networks in both domestic and international markets. The student works extraordinary well in an international team and/or global context. The student participates proactively and with goal-orientation in the project planning, implementation and evaluation. The student is able to operate proactively with an entrepreneurial mindset.

Recognising and validating prior learning (RPL)

If students have acquired the required competence in previous work tasks, recreational activities or in other studies, they can show the competence with a demonstration and progress faster through their studies. S/he can identify a few stakeholders and networks in both domestic and international markets. The student finds it challenging to work in an international team and/or global context. The student participates in the project planning, implementation and evaluation with a minimal input. The student is able to operate only when the task and instructions are given and when s/he is aided by other students and the supervisors.

Grade 3

The student understands and is able to define the concept and the terminology of the operational environment. S/he is able to search for relevant sources and use them independently. S/he is able to analyse the operational environment by choosing and using research and development methods as well as digital tools. S/he can identify and analyse the core stakeholders and networks in both domestic and international markets. The student is able to work in an international team and/or global context. The student participates in the project planning, implementation and evaluation independently and makes use of the advise available. The student is able to operate when the task and instructions are given.

Grade 5

The student understands and is able to define the concept and the terminology of the operational environment. S/he is able to search for relevant information actively and independently from versatile sources. The student is able to assess the reliability of the sources and use them with skill. S/he is able to analyse the operational environment by choosing and using relevant research and development methods as well as digital tools. S/he can identify and analyse the core stakeholders and networks in both domestic and international markets. The student works extraordinary well in an international team and/or global context. The student participates proactively and with goal-orientation in the project planning, implementation and evaluation. The student is able to operate proactively with an entrepreneurial mindset.

Recognising and validating prior learning (RPL)

If students have acquired the required competence in previous work tasks, recreational activities or in other studies, they can show the competence with a demonstration and progress faster through their studies. More information and instructions for recognising and validating prior learning (RPL) are available at [MyNet](#).

Connections to business life

Company visits, guest lecturers and workshops in cooperation with different companies and organisations.

Internationality

Possibility to work with international teams and instructors. Guest lecturers from international organisations and partner universities. International learning materials.

Contents

- Analysis of the operational environment within the aviation industry (1st and 2nd semester)
- Basics of macro and microeconomics (1st and 2nd semester)
- Legal environment (2nd semester)
- Digital environment (1st and 2nd semester)
- Core actors, organisations and networks operating in local, domestic and international markets with emphasis on the aviation industry (1st and 2nd semester)

Learning methods

All competences are implemented in learning activities jointly with other modules. The methods used in the learning activities are e.g.:

Inquiry learning

Peer-to-peer learning

Tutorials

Debates

Study tours and company visits

Lectures and workshops

Independent study and teamwork
The assessment of one's own learning

Assessment

The assessment methods are defined in the implementation plans. The assessment methods may include:

Individual assignments
Final deliverables
Exams
Peer assessment
Self-assessment
Commissioners' assessment

The self-assessment (through Winha) of one's own learning does not influence the module grade. The self-assessment and students' feedback to the module will be used for the module development. The feedback is collected via an electronic form.

Customer Competence in Aviation Business 1

Code: SAL1AB101

Scope: 5 ECTS

Timing: 1st semester

Language: English

Curriculum: Porvoo Campus 2017

Module level: Basic studies, level 1

Module type: Compulsory

Starting level and linkage with other modules

The module has no prerequisites. This module is linked with all the level 1 modules of the Campus 2017 curriculum. This module, offered in Semester 1, is part 1 of the upcoming module, offered in Semester 2, with the similar name. The module contents will be implemented through semester projects.

Learning objectives and assessment

The module is a part of basic studies in Porvoo Campus competence-based curriculum and advances the following competences: e.g., customer understanding and service, understanding how to find and maintaining customers, customer lifecycle, customer analysis, focus on customer experience within the aviation industry. The module advances also communication and argumentation, active listening and rapport building and skillful communication. There are also other parallel implementations of this module with the same objectives yet with a different industry specific focus.

Grade 1

The student understands how to find and maintain customers by choosing and using research and development methods when aided and guided by others. S/he has difficulties in evaluating different customer types and changing communication accordingly. S/he has a limited ability to recognise and follow customer needs as well as focus on customer experience. The student is able to use different sales and marketing communication channels only with assistance. S/he is able to display only a poor level of customer orientation. The student participates in the project planning, implementation and evaluation with a minimal input. The student is able to operate only when the task and instructions are given and when s/he is aided by other students and the supervisors.

Grade 3

The student understands how to find and maintain customers by choosing and using relevant research and development methods. S/he is able to evaluate customer types and change communication accordingly. S/he can recognise and follow customer needs as well as focus on customer experience. The student has a rather good ability to use different sales and marketing communication channels. S/he is able display some level of customer orientation. The student participates in the project planning, implementation and evaluation independently and makes use of the advise available. The student is able to operate when the task and instructions are given.

Grade 5

The student understands how to find and maintain customers by choosing and using relevant research and development methods. S/he is able to evaluate customer types and change

communication accordingly. S/he can recognise and follow customer needs as well as focus on customer experience. S/he is able to use different sales and marketing communication channels. The student participates proactively and with goal-orientation in the project planning, implementation and evaluation. The student is able display excellent customer oriented mindset.

Recognising and validating prior learning (RPL)

If students have acquired the required competence in previous work tasks, recreational activities or in other studies, they can show the competence with a demonstration and progress faster through their studies. More information and instructions for recognising and validating prior learning (RPL) are available at [MyNet](#).

Connections to business life

Company visits, guest lecturers and workshops in cooperation with different companies and organisations.

Internationality

Possibility to work with international teams and instructors. Guest lecturers from international organisations and partner universities. International learning materials.

Contents

- Customer understanding (1st semester)
- Tools to identify customer needs and expectations (1st semester)
- Consumer behaviour (1st semester)
- Customer journey (1st semester)

- Customer experience management (1st semester)
- Sales and marketing communication (with an aviation industry specific approach) (2nd semester)

Learning methods

All competences are implemented in learning activities jointly with other modules. The methods used in the learning activities are e.g.:

Inquiry learning
Peer-to-peer learning
Tutorials
Debates
Study tours and company visits
Lectures and workshops
Independent study and teamwork
The assessment of one's own learning

Assessment

Self and Team Leadership 1

Code: LEA1AB101

Scope: 5 ECTS

Timing: 1st semester

Language: English

Curriculum: Porvoo Campus 2017

Module level: Basic studies, level 1

Module type: Compulsory

Starting level and linkage with other modules

The module has no prerequisites. This module is linked with all the level 1 modules of the Campus 2017 curriculum. This module, offered in Semester 1, is part 1 of the upcoming module, offered in Semester 2, with the similar name. The module contents will be implemented through semester projects.

Learning objectives and assessment

The module is a part of basic studies in Porvoo Campus competence-based curriculum and advances the following competences: e.g., self-reflection and management, future work life skills, time and stress management, integrity and responsible behaviour with focus on risk management and understanding the individuals' role within the aviation industry. The module also advances professional communication and career orientation. There are also other parallel implementations of this module with the same objectives yet with a different industry specific focus.

Grade 1

The student is able to practice self-reflection with guidance. The student displays limited time-management and stress management skills. The student has difficulties in giving and receiving feedback. S/he has limited sensitivity towards personal and cultural differences and difficulties in adapting to the respective environment. The student participates in the project planning, implementation and evaluation with a minimal input. The student needs support in finding motivation.

Grade 3

The student is able to practice self-reflection and critical thinking at some level. The student displays some time-management and stress management skills. The student is able to give and receive feedback. S/he understands personal differences and multicultural environments and adapts to the respective environment at some level. The student participates in the project planning, implementation and evaluation independently and makes use of the advice available. The student is goal-oriented and self-driven to a certain extent.

Grade 5

The student is able to practice self-reflection and critical thinking. The student displays time-management and stress management skills. S/he is self-disciplined and self-motivated. The student is able to give and receive constructive feedback. S/he understands personal differences and multicultural environments and adapts to the respective environment. The student participates proactively and with goal-orientation in the project planning, implementation and evaluation. The student displays a career and goal-oriented mindset.

Welcome to Finland 1

Code: FIN1PO101

Scope: 5 ECTS

Timing: 1st semester

Language: Finnish, English

Curriculum: Porvoo Campus 2017

Module level: Basic Studies

Module type: Compulsory

Starting level and linkage with other courses

No prerequisites for Welcome to Finland 1. Welcome to Finland 2 is linked with the module 1.

Learning objectives and assessment

This module continues the introduction to the Finnish language and society. The module is a part of basic studies in Porvoo Campus competence-based curriculum. It will give a student basic communicative skills in the Finnish language (level A1). The module will also increase cultural awareness and knowledge of Finnish study and business styles. Upon completion of the course, the student starts the integration to the Finnish society and is able to understand Finnish working life, history and culture on basic level. Also the Finnish lifestyle, customs and manners will become familiar.

Grade 1

The student has some understanding of the lesson and group work orientation. S/he can identify and understand a few contents of the course. The student participates in learning activities with a minimal input. The student is able to operate only when the task and instructions are given and when s/he is aided by other students and supervisors. The student has difficulties in accomplishing the assignments.

In his/her Finnish language skills the student can produce short sentences/texts, though he/she has many difficulties in the written/oral outcome. The student uses the essential vocabulary (personal information, family, living, shopping situations, daily routines, studies, food, transportation, different social situations) and the language constructions of the course satisfactory. The student can pronounce the Finnish words with some difficulties.

Grade 3

The student understands and is able to define contents of the course. S/he knows how to adapt Finnish study and business styles. The student is able to operate when the task and instructions are given. The student follows lessons and participates in group works well. The student completes the assignments and presents them well and independently.

In his/her Finnish language skills the student can produce short sentences/texts, though he/she has some difficulties in the written/oral outcome. The student uses quite well the essential vocabulary (personal information, family, living, shopping situations, daily routines, studies, food, transportation, different social situations) and the language constructions of the course. The student can pronounce the Finnish words without mayor difficulties.

Grade 5

S/he has professionally advanced in contents of the course. S/he shows excellent skills how to adapt Finnish study and business styles. The student follows lessons and participates actively in all assignments of the module. The assignments are done independently without difficulties and presented with strong communication skills.

In his/her Finnish language skills the student can produce short sentences/texts without mayor difficulties in the the written/oral outcome. The student uses vey well the essential vocabulary (personal information, family, living, shopping situations, daily routines, studies, food, transportation, different social situations) and the language constructions of the course. The student can pronounce the Finnish words without difficulties.

Passed courses are assessed on a scale of 1 to 5. The assessment criteria are presented for grades 1 - 3 - 5.

Recognising and validating prior learning (RPL)

If students have acquired the required competence in previous work tasks, recreational activities or in other studies, they can show the competence with a demonstration and progress faster through their studies. More information and instructions for recognizing and validating prior learning (RPL) are available at [MyNet](#).

Connections to business life

The course is strongly linked to Porvoo region which gives new students of Porvoo Campus a possibility to adapt more easily their new study environment and region. Company visits, visiting lecturers and self-study projects will give an idea of Finnish business culture and manners and might even help in developing future networks.

Internationality

Possibility to work and study with international fellow students.

Contents

- Finland in a nutshell: geography, Finnish cities, towns and regions (1st semester)
- Finns and the Finnish language: origins and the present time (1st semester)
- Porvoo tour and museum visits (1st and 2nd semester)
- Finnish lifestyle and manners: family life, concept of time (1st and 2nd semester)
- Finnish education system (1st and 2nd semester)
- Finnish companies (1st and 2nd semester)
- Finnish food and gastronomy (1st and 2nd semester)
- Finnish language studies: personal information, family, living, shopping situations, daily routines, studies, food, different social situations (1st semester)
- Finnish nature (2nd semester)
- Finnish language studies: daily routines, living, studies, food, travelling, different social situations (2nd semester)

Nordiska studier 1

Kod: NRD1PO101

Omfattning: 5 sp

Tidpunkt: 1. terminen

Språk: Svenska, finska

LP: Borgå Campus 2017, alla program

nivå: grundstudier

Studiekursens typ: obligatorisk

Språknivåmålsättning: B1

Utgångsnivå och koppling till andra kurser

Modulen utgör en del av Borgå campus kompetensbaserade läroplan.

Modulens utgångsnivå är B1 / referensramen för de europeiska språken (CEFR) och den studerande bör ha tidigare studier i svenska på andra stadiet då kursen inleds. Språknivån i svenska testas i början och i slutet av modulen och en del av innehållet i grammatiken varierar enligt nivån som den studerande uppnått.

Modulen främjar bl.a. följande kompetensområden: globalt tänkande, insiktsfulla muntliga och skriftliga kommunikationsfärdigheter, framtidens arbetslivsfärdigheter, argumentationsförmåga, uppträdande och yrkesfärdigheter i en mångkulturell internationell miljö.

Kunskapsmål och bedömning

Vitsord 1

Den studerande har förmågan att förstå målområdet, dess språk och kultur. Hen kan kommunicera på det lokala språket (svenska) och skapa nätverk inom det aktuella området. Hen har en viss förmåga att förstå affärslivskultur och utgångspunkter. Den studerande förmår agera enligt de uppgifter och anvisningar hen får av andra studerande och handledare.

Vitsord 3

Den studerande har förmågan att förstå målområdet, dess språk och kultur. Hen kan kommunicera på svenska och skapa nätverk tillsammans med aktörer inom branschen. Den studerande har en uppfattning om affärskultur och dess utgångspunkter. Den studerande förmår agera och utföra uppgifter med hjälp av instruktioner.

Vitsord 5

Den studerande har förmågan att förstå målområdet, dess språk och kultur. Hen kan framgångsrikt kommunicera på svenska och skapa nätverk tillsammans med aktörer inom branschen. Hen har en omfattande uppfattning om regionens affärskultur och dess utgångspunkter. Den studerande uppvisar prov på kultursensivitet och affärsorienterade färdigheter.

Identifiering och erkännande av tidigare inhämtat kunnande (AHOT)

Ifall den studerande redan under tidigare arbetsuppgifter, hobbyer eller kurser uppnått de färdigheter som krävs, kan hen validera sitt kunnande och framskrida snabbare i sina studier. Se

tilläggsuppgifter och anvisningar om identifiering och erkännande av tidigare inhämtat kunnande (AHOT) på Mynet eller www-sidor.

Arbetslivskontakter

Företagsbesök, workshops samt gästföreläsare från företag och organisationer. Arbetslivsrelaterade uppgifter.

Internationella aspekter

Möjligheter att jobba i internationella team och med internationella handledare. Eventuellt svenskspråkiga gästföreläsare och samarbete med internationella partnerhögskolor och organisationer. En eventuell studieresa.

Innehåll

- Repetition av svenska (baserar sig på resultatet från nivåprovet)
- Kultur och samhälle i Finland och Sverige
- Nordiska samhällen, affärskultur och affärsverksamhetsmiljö: Finland, Sverige, Norge, Danmark och Island
- Affärlivskommunikation t.ex. e-post och presentationer

Inlärningsmetoder

I tillämpningarna används bl.a. följande inlärningsmetoder:

Forskande och utvecklande inläring

narrativ inläring

Självständigt arbete och grupparbete under handledning

Företagsbesök och andra besök

Närundervisning on workshops

Eventuell studieresa / att arrangera en temadag

Utvärdering av den egna inläringen ingår som en obligatorisk del av bedömningen.

Inlärningsmetoder

Modulens kompetenser integreras i terminsprojekt

I tillämpningarna används bl.a. följande inlärningsmetoder:

Forskande och utvecklande inläring:

Självständigt arbete och grupparbete under handledning

Företagsbesök

Närundervisning on workshops

Potentiell studieresa / att arrangera en temadag

Utvärdering av den egna inläringen ingår som en obligatorisk del av bedömningen.

Bedömningsmetoder

Individuella inlärningsuppgifter och prestationer 30 %

Gruppuppgifter 20%

Slutliga prestationer 50%

Själv- och narrativ bedömning

Självbedömningen (via winha) påverkar inte modulvitsordet, utan används till att utveckla kursen.

Den samlas in elektroniskt.

Ansvarig(a) lärare

Riitta Forsnabba, Borgå

Nordiska studier 2

Kod: NRD1PO102

Omfattning: 5 sp

Tidpunkt: 2. terminen

Språk: Svenska, finska

LP: Borgå Campus 2017, alla program

nivå: grundstudier

Studiekursens typ: obligatorisk

Språknivåmålsättning: B1

Utgångsnivå och koppling till andra kurser

Modulen utgör en del av Borgå campus kompetensbaserade läroplan.

Modulens utgångsnivå är B1 / referensramen för de europeiska språken (CEFR) och den studerande bör ha tidigare studier i svenska på andra stadiet då kursen inleds. Språknivån i svenska testas i början och i slutet av modulen och en del av innehållet i grammatiken varierar enligt nivån som den studerande uppnått.

Modulen främjar bl.a. följande kompetensområden: globalt tänkande, insiktsfulla muntliga och skriftliga kommunikationsfärdigheter, framtidens arbetslivsfärdigheter, argumentationsförmåga, uppträdande och yrkesfärdigheter i en mångkulturell internationell miljö.

Kunskapsmål och bedömning

Vitsord 1

Den studerande har förmågan att förstå målområdet, dess språk och kultur. Hen kan kommunicera på det lokala språket (svenska) och skapa nätverk inom det aktuella området. Hen har en viss förmåga att förstå affärslivskultur, dess utgångspunkter och det nordiska samhället. Den studerande förmår agera enligt de uppgifter och anvisningar hen får av andra studerande och handledare.

Vitsord 3

Den studerande har förmågan att förstå målområdet, dess språk och kultur. Hen kan kommunicera på svenska och skapa nätverk tillsammans med aktörer inom branschen. Den studerande har en uppfattning om affärslivskultur, dess utgångspunkter och det nordiska samhället. Den studerande förmår agera och utföra uppgifter med hjälp av instruktioner.

Vitsord 5

Den studerande har förmågan att förstå målområdet, dess språk och kultur. Hen kan framgångsrikt kommunicera på svenska och skapa nätverk tillsammans med aktörer inom branschen. Hen har en omfattande uppfattning om regionens affärslivskultur, dess utgångspunkter och det nordiska samhället. Den studerande uppvisar prov på kultursensivitet och affärsorienterade färdigheter.

Identifiering och erkännande av tidigare inhämtat kunnande (AHOT)

Ifall den studerande redan under tidigare arbetsuppgifter, hobbyer eller kurser uppnått de färdigheter som krävs, kan hen validera sitt kunnande och framskrida snabbare i sina studier. Se

tilläggsuppgifter och anvisningar om identifiering och erkännande av tidigare inhämtat kunnande (AHOT) på Mynet eller www-sidor.

Internationella aspekter

Möjligheter att jobba i internationella team och med internationella handledare. Eventuellt svenskspråkiga gästföreläsare och samarbete med internationella partnerhögskolor och organisationer. En eventuell studieresa.

Innehåll

- Studier i svenska: språkriktighet, olika textstilar
- Yrkes- och arbetslivskultur i Norden
- Företagande i Norden
- Kundbetjäning
- Marknadsförings- och digital kommunikation (t.ex. blogg)
- Nätverksfärdigheter
- Färdigheter att förmedla information

Inlärningsmetoder

Modulens kompetenser integreras i terminsprojekt

I tillämpningarna används bl.a. följande inlärningsmetoder:

Forskande och utvecklande inläring:

Learning Camp 3

Code: INS2PO201

Scope: 5 ECTS

Timing: 3rd semester

Language: English

Curriculum: Porvoo Campus 2017

Module level: Professional studies

Module type: Compulsory

Starting level and linkage with other modules

The module is a part of basic studies in Porvoo Campus competence-based curriculum. The module advances the following competences: ability to use relevant development methods, critical approach to information and sources, financial and trend analysis, problem-solving skills, communication and argumentation, ethical thinking, self-reflection skills and presentation skills and savvy use of digital tools. The module is closely linked with the other learning camps and modules throughout the studies.

Learning objectives and assessment

Grade 1

The student has a vague picture of the different stages of a development process and is able to plan and implement the process with guidance. S/he has a limited understanding of the characteristics and usability of different development methods. The student is able to choose the relevant method for the task at hand and justify the reasoning for the selection only when aided by others. S/he has difficulties in using the digital tools needed for data collection and analysis. The student has a limited ability to communicate the results of the development process to the commissioner and other relevant audiences. S/he participates in the planning, implementation and evaluation with a minimal input. The student requires extra support from peers and supervisors in order to complete tasks. S/he needs encouragement and external support to start the thesis process.

Grade 3

The student has a fairly clear picture of the different stages of a development process and is able to plan and implement the process quite well. S/he understands the characteristics and usability of different development methods rather well. The student is able to choose the relevant method for the task at hand and justify the reasoning for the selection to some extent. S/he has a relatively good ability to use the digital tools needed for data collection and analysis. The student is able to communicate the results of the development process quite effectively to the commissioner and other relevant audiences. The student participates in the planning, implementation and evaluation independently and makes use of the advice available. S/he displays an ability to start the thesis process. The student is able to operate when the task and instructions are given.

Grade 5

The student has a clear picture of the different stages of a development process and is able to plan and implement the process exceptionally well. S/he understands the characteristics and usability of different development methods. The student is able to choose the relevant method for the task at hand and justify the reasoning for the selection. S/he has an excellent ability to use the digital tools needed for data collection and analysis. The student is able to communicate the results of the

development process effectively to the commissioner and other relevant audiences. S/he participates proactively in the planning, implementation and evaluation. The student displays a goal-oriented mindset and professional attitude as well as a clear orientation towards starting the thesis process.

Recognising and validating prior learning (RPL)

If students have acquired the required competence in previous work tasks, recreational activities or in other studies, they can show the competence with a demonstration and progress faster through their studies. More information and instructions for recognising and validating prior learning (RPL) are available at [MyNet](#).

Connections to business life

Guest lecturers from the industry, Haaga-Helia Porvoo alumni. Business related tasks and deliverables.

Internationality

Possibility to work with international team and international lectures. Possible guest lecturers from international organisations and partner universities. International learning materials.

Contents

- stages of development process
- development methods
- digital tools and methods for data collection and analysis
- professional communication
- academic writing and reporting
- personal study coaching

Learning methods

All competences are implemented in learning activities jointly with other modules. The methods used in the learning activities are e.g.:

Service design

Inquiry learning

Peer-to-peer learning

Tutorials

Debates

Lectures and workshops

Independent study and teamwork

The assessment of one's own learning

Assessment

The assessment methods may include:

Individual assignments
Final deliverables
Exams
Peer assessment
Self-assessment

The self-assessment (through Winha) of one's own learning does not influence the module grade.
The self-assessment and students' feedback to the module will be used for the module development.
The feedback is collected via an electronic form.

Module instructor(s)

Marika Alhonen, Porvoo
Annika Konttinen, Porvoo
Sirpa Lassila, Porvoo
Niina Moilanen (coordinator), Porvoo

Managing Aviation Business Operations

Code: BUS2AB201

Scope: 5 ECTS

Timing: 3rd semester

Language: English

Curriculum: Porvoo Campus 2.0, degree programme in aviation business

Course level: Professional Studies

Course type: Compulsory

Starting level and linkage with other courses

The module is a part of professional studies in Porvoo Campus competence-based curriculum. The module advances the following competences: entrepreneurial thinking, analytical and strategic thinking, knowledge and analysis of business operations from management perspective, problem-solving skills, global business intelligence, financial and trend analysis, savvy use of digital tools and value chain understanding. The module will cover both airline business and airport business as well as to some extent also cargo.

Learning objectives and assessment

Grade 1

The student has a limited ability to analyse business operations. S/he has difficulties in recognising different business models and choosing appropriate models. S/he has difficulties with strategic thinking and problem solving. S/he is able to use global business intelligence for decision-making and conduct financial analysis only when aided by others. Her/his understanding of value chains, business processes and management of business operations is very limited. The student can use digital tools, research and development methods only when the task and instructions are given and when aided by other students and the supervisors.

Grade 3

The student is able to analyse business operations, recognise different business models and choose appropriate models rather well. S/he displays some strategic thinking and problem-solving skills. S/he is able to use global business intelligence for decision-making and conduct financial analysis. S/he has a basic understanding of value chains, business processes and management of business operations. The student can use a few digital tools, research and development methods. The student is able to operate when the task and instructions are given.

Grade 5

The student is able to analyse business operations, recognise different business models and choose appropriate models. S/he is able to think strategically and show problem-solving skills. S/he is able to use global business intelligence for decision-making as well as conduct financial analysis. Her/his understanding of value chains, business processes and management of business operations is very good. The student can use versatile digital tools as well as choose and use relevant research and development methods. S/he has a business-oriented mindset with a focus on profitability.

Recognising and validating prior learning (RPL)

If students have acquired the required competence in previous work tasks, recreational activities or on another module or course, they can show the competence with a demonstration and progress faster through their studies. More information and instructions for recognising and validating prior learning (RPL) are available at [MyNet](#).

Working life connections

Company visits, guest lecturers and workshops from different companies and organisations.
Commissions from industry partners.

Internationality

Possibility to work in international teams and international lectures. Guest lecturers from international organisations and partner universities. International learning materials.

Contents

- Business models and business processes, managing business operations
- Budgeting and profitability
- Case studies of airlines, airports, cargo companies (focus on future trends in the context of current financial performance)
- Business plans for various business models (airline, airport, cargo) for a business plan competition;
- Modelling a supply chain for a commissioner, supply chain management, optimising supply management in airlines / airports / cargo
- Module portfolio (career oriented) with reflection

Learning methods

Inquiry learning
Project (business plan, developmental project)
Peer-to-peer learning
Case studies

Leading Human Resources in Aviation Business

Code: LEA2AB201

Scope: 5 ECTS

Timing: Level 2

Language: English

Curriculum: Porvoo Campus Aviation Business Programme

Course level: Professional studies (3d semester)

Course type: Compulsory

Starting level and linkage with other courses

The module is a part of professional studies in Porvoo Campus competence-based curriculum. The module advances the following competences: ability to analyse and describe the organisational structure and operations of different aviation stakeholders, focus on critical and ethical thinking, professional expertise and innovation, understanding of an individual's role within the aviation environment. The module will make use of the cases and situations from other modules and activities whenever possible.

Learning objectives and assessment

Grade 1

The student can identify different aviation stakeholders and their organisational structure and operational focus. S/he can describe the functions and operations of aviation stakeholders. The student is able to finalise the tasks based on given instructions and received support.

Grade 3

The student can describe different aviation stakeholders and is able to explain their organisational structure and operational focus. S/he can describe and compare different organisational functions of aviation stakeholders. The student is able to solve organisational challenges when the task and instructions are given. The student is able to use research and developmental methods.

Grade 5

The student can describe and analyse organisational functions of different aviation stakeholders. S/he is able to discuss their organisational structure and operational focus. The student is able to analyse and solve organisational challenges proactively. The student is able to choose and use relevant research and developmental methods.

Recognising and validating prior learning (RPL)

If students have acquired the required competence in previous work tasks, recreational activities or on another course, they can show the competence with a demonstration and progress faster through their studies. More information and instructions for recognising and validating prior learning (RPL) are available at [MyNet](#).

Marketing and Sales in Aviation Business

Code: SAL2AB201

Scope: 5 ECTS

Timing: Level 2

Language: English

Curriculum: Porvoo Campus, all degree programmes

Course level: Professional studies

Course type: Free-choice online

Starting level and linkage with other courses

The module is a part of professional studies in Porvoo Campus competence-based curriculum. The module advances the following competences: distribution and sales, customer experience, sales and services in global markets, solution oriented selling, customer value propositions, marketing, effective presentations.

Learning objectives and assessment

Grade 1

The student can find relevant theory, methods and specific terminology. S/he is able to conduct market research and collect data and to analyse the needs of customers to provide solutions to them only when aided by others. The student can use marketing tools with assistance from others. S/he is able to acquire knowledge of sales, distribution, and service experience for global markets. The student is able to operate when the task and instructions are given and when aided by other students and the supervisors.

Grade 3

The student is able to use of theory, methods and his/her usage of specific terminology is accurate. S/he is able to conduct market research and collect data to gain reliable understanding how to analyse the needs of customers to provide solutions to them. The student can use marketing tools. S/he has knowledge of sales, distribution, and service experience for global markets.

Grade 5

The student can develop theory and methods and use specific terminology very accurately in various contexts. S/he is able to conduct relevant market research and collect data to gain a comprehensive understanding of customer needs and provide solutions. The student can use marketing tools with desired impact. S/he has reliable knowledge of sales, distribution, and service experience for global markets. S/he has an innovative approach and can conduct research at a highly professional level.

Recognising and validating prior learning (RPL)

If students have acquired the required competence in previous work tasks, recreational activities or on another course, they can show the competence with a demonstration and progress faster through their studies. Asian Areal Studies 1

Code: ASA2PO201

Scope: 5 ECTS

Timing: 3rd semester

Language: English

Curriculum: Porvoo Campus, all degree programmes

Course level: Professional studies

Course type: Compulsory/Free-choice

Starting level and linkage with other courses

The module is a part of the professional studies in Porvoo Campus competence-based curriculum. The module advances the following competences: e.g., communication, cultural awareness, customer understanding and global business mindset. The module can be taken as 5cr+5cr module. The first part (5 cr) gives an overall understanding of the Asian markets and business culture, the second part (5 cr) part consists of product planning and marketing for the Asian markets.

Learning objectives and assessment

Grade 1

The student has a very basic understanding of the culture, society, business environment and economy of Asian markets. S/he is aware of the consumer behaviour of selected Asian markets. The student has some understanding of the business culture and its context. S/he has challenges with communicating and networking with stakeholders in Asia. The student is able to assess and develop products and services as well as to choose marketing communication methods for Asian markets only when aided by others. The student is able to operate only when the task and instructions are given and when aided by other students and supervisors.

Grade 3

The student is able to understand the culture, society, business environment and economy of Asian markets. S/he understands the consumer behaviour of selected Asian markets to some degree. The student has an idea of the business culture and its context. S/he is able to communicate and network with stakeholders in Asia. The student has some ability to assess and develop products and services as well as to choose marketing communication methods for Asian markets. The student is able to operate when the task and instructions are given.

Grade 5

The student has an advanced understanding of the culture, society, business environment and economy of Asian markets. S/he understands the consumer behaviour of selected Asian markets. The student has a comprehensive idea of the business culture and its context. S/he is able to communicate and network on a professional level with stakeholders in Asia. The student is able to assess and develop products and services as well as to choose the most effective marketing communication methods for Asian markets. The student displays a culturally aware business-oriented approach towards Asia and is able to lead teamwork.

Recognising and validating prior learning (RPL)

Recognition of prior learning is not recommended in Areal Studies in Porvoo Campus competence-based curriculum, but all students are encouraged to choose an unfamiliar to them Areal Study module topic (5 + 5 ECTS).

Working life connections

Possible company visits, guest lecturers and workshops in cooperation with different organisations both in Finland and abroad.

Internationality

Possibility to work with international team and international lectures. Guest lecturers from international organisations and partner universities.

Contents

Applied Coding 1

Code: COD2PO201

Scope: 5 ECTS

Timing: 3rd semester

Language: English

Curriculum: Porvoo Campus, all degree programmes

Course level: Areal studies

Course type: free-choice

Starting level and linkage with other courses

The module advances the following competences: cultural awareness, customer understanding and business mindset, research methods, market research and product service development. The module is linked to the core modules Business Environment and Customer Competences. The module can be taken as 5cr and can be later followed with a free-choice studies/star module (5cr).

Learning objectives and assessment

Grade 1

The student has some understanding of coding languages used in the module. He/She is able to communicate at a minimal level in the coding language. The student displays limited cultural business awareness and is able to assess some of the product needs for the customer. The student is able to operate only when aided by other students and supervisors.

Grade 3

The student is able to understand coding languages used in the module. He/She is able to develop some coding independently. The student is able to operate with tasks both in teams and independently. The student displays some culturally aware business-oriented approaches by assessing the product needs for the customer.

Grade 5

The student has an advanced understanding of coding languages used in the module. He/She is able to develop coding independently. He/She applies an entrepreneurial problem-solving approach to their project work and coding creation processes. The student has a comprehensive culturally aware business-oriented approach by assessing the product needs for the customer.

Recognising and validating prior learning (RPL)

Recognition of prior learning is not recommended in Areal Studies in Porvoo Campus competence-based curriculum, but all students are encouraged to choose an unfamiliar Areal Study module topic (5 + 5 ECTS).

Students with prior coding language background knowledge wishing to deepen their coding skills are advised to take an alternative advanced coding language course.

Working life connections

Possible company visits and guest lecturers and workshops from different companies and organisations.

Internationality

Possibility to operate with international teams and international lectures. Possible guest lecturers from international organisations and partner universities.

German Areal Studies 1

Code: GER2PO201

Scope: 5 ECTS

Timing: 3rd semester

Language: English / German

Curriculum: Porvoo Campus 2.0 (2017), all degree programmes

Course level: Professional studies

Course type: Compulsory or free-choice

Starting level and linkage with other courses

The module is a part of professional studies in the Porvoo Campus competence-based curriculum. No previous studies in German are required. The module advances the following competences: communication, cultural awareness, customer understanding and global business mindset. The module is expected to be taken as a 5 + 5 ECTS module and can be later followed by a star module (5 ECTS).

Learning objectives and assessment

Grade 1

The student has some understanding of German-speaking regions, German language and the cultural, political, economic and social aspects of its environment. S/he is able to communicate at a minimal level in the local language and network with actors in the selected area. The student has only a limited understanding of the business culture and its context. The student is able to operate only when aided by other students and supervisors.

Grade 3

The student is able to understand German-speaking regions, German language and the cultural, political, economic and social aspects of its environment. S/he is able to communicate at some level in the local language and network with actors in the selected area. The student has a clear idea of the business culture and its context. The student is able to operate with tasks both in teams and independently.

Grade 5

The student has an advanced understanding of German-speaking regions, German language and the cultural, political, economic and social aspects of its environment. S/he is able to communicate reliably in the local language and network with actors in the selected area. The student has a comprehensive idea of the business culture and its context. The student displays a culturally aware business-oriented approach and is able to lead team work.

Recognising and validating prior learning (RPL)

Recognition of prior learning is not recommended in Areal Studies in Porvoo Campus competence-based curriculum, but all students are encouraged to choose an unfamiliar to them Areal Study module topic (5 + 5 ECTS).

Students with prior language skills in German wishing to deepen their German skills can take advanced German language courses as a part of their free-choice studies.

Working life connections

Possible company visits and guest lecturers and workshops from different companies and organisations both in Finland and abroad.

Internationality

Possibility to work with international team and international lectures. Possible guest lecturers from international organisations and partner universities.

Self-assessment

The assessment is based on the progress of a student towards mastering German Areal studies, rather than on a tested level of linguistic competence (German language).

The self-assessment (through Winha/Peppi) of one's own learning does not influence the module grade. The self-assessment and students' feedback to the module will be used for the module development. The feedback is collected in an electronic form.

Course teacher(s)

Michael Reinert, Porvoo

Russian Areal Studies 1

Code: RUS2PO201

Scope: 5 ECTS

Timing: 3rd semester

Language: English/Finnish, Russian

Curriculum: Porvoo Campus 2.0 (2017), all degree programmes

Course level: Professional studies

Course type: Compulsory or free-choice

Starting level and linkage with other courses

The module is a part of professional studies in the Porvoo Campus competence-based curriculum. No previous studies in Russian are required. The module advances the following competences: cultural awareness, customer understanding and a business mindset, research methods and communication. The module follows the global mindset activities in Learning Camps and is linked to environment and customer competence studies. The module is expected to be taken as a 5 + 5 ECTS module and can be later followed by a star module (5 ECTS).

Learning objectives and assessment

Grade 1

The student has some understanding of Russia, Russian language and the cultural, political, economic and social aspects of its environment. S/he is able to communicate at a minimal level in the local language and network with actors in the selected area. The student has only a limited understanding of the business culture and its context. The student is able to operate only when aided by other students and supervisors.

Grade 3

The student is able to understand Russia, Russian language and the cultural, political, economic and social aspects of its environment. S/he is able to communicate at some level in the local language and network with actors in the selected area. The student has a clear idea of the business culture and its context. The student is able to operate with tasks both in teams and independently.

Grade 5

The student has an advanced understanding of Russia, Russian language and the cultural, political, economic and social aspects of its environment. S/he is able to communicate reliably in the local language and network with actors in the selected area. The student has a comprehensive idea of the business culture and its context. The student displays a culturally aware business-oriented approach and is able to lead team work.

Recognising and validating prior learning (RPL)

Recognition of prior learning is not recommended in Areal Studies in Porvoo Campus competence-based curriculum, but all students are encouraged to choose an unfamiliar to them Areal Study module topic (5 + 5 ECTS).

Students with prior language skills in Russian wishing to deepen their Russian skills can take advanced Russian language courses as a part of their free-choice studies.

Working life connections

Possible company visits and guest lecturers and workshops from different companies and organisations.

Internationality

Possibility to operate with international teams and international lectures. Possible guest lecturers from international organisations and partner universities.

Contents

- Elementary Russian language
- Russian history, geography, society, economy, trade relations, entrepreneurship
- Russian operational environment and business culture

Learning methods

Inquiry learning:

Peer-to-peer learning

Tutorials

Possible company visits

Lectures and workshops

Independent study and teamwork

The assessment of one's own learning 1 h

Assessment

Assessment details can be checked from implementation plans (including attendance requirements).

Työharjoittelu

Tunnus: PLA6PO100

Laajuus: 30 op (100 päivää)

Ajoitus: 2. lukukauden jälkeen

Kieli: Riippuu työpaikalla käytetystä kielestä

OPS: Kaikki Porvoon OPS:t

Opintojakson taso: työharjoittelu

Opintojakson tyyppi: pakollinen

Lähtötaso ja sidonnaisuudet muihin opintojaksoihin

Opiskelija voi lähteä työharjoitteluun, kun hän on suorittanut vähintään 60 opintopistettä. Halutessaan voi opiskelija suorittaa työharjoittelun tämän 30 op:n opintojakson sijaan useammassa pienemmässä osassa (Työharjoittelu 1 PLA6PO101, 10 op; Työharjoittelu 2 PLA6PO102, 10 op; ja Työharjoittelu 3 PLA6PO103, 10 op).

Osaamistavoitteet ja arviointi

Opiskelija ymmärtää omien ammatillisten taitojen kehittämisen tärkeyden ja tunnistaa kehittämistarpeensa. Hän osaa arvioida ja kehittää omaa työtään ja työympäristöään. Opiskelija ymmärtää yhteyden koulussa opitun ja työtehtävien välillä.

Opintojakso arvioidaan asteikolla hyväksyty-hylätty.

Aikaisemmin hankitun osaamisen tunnistaminen ja tunnustaminen (AHOT)

Korvaaminen

Työharjoittelu voidaan korvata aiempiin korkeakouluopintoihin sisältyneellä harjoittelulla, jos se vastaa koulutusohjelman harjoittelun tavoitteita. Harjoittelukoordinaattori päättää korvaamisesta.

Näyttö

Näytöllä työharjoittelun voivat suorittaa opiskelijat, jotka ovat ennen opintojen alkua hankkineet alan kokemusta ja jotka perustellusta syystä haluavat saada hyväksiluetuksi näin hankitun osaamisen. Opiskelija näyttää aiemmin hankittua osaamistaan näytöllä koulutusohjelman ohjeiden mukaisesti. Näytöistä sovitaan koulutusohjelman työharjoittelukoordinaattorin kanssa.

Työelämäyhteydet

Työharjoittelu suoritetaan kiinteässä yhteydessä työelämään, yrityksessä, järjestössä tai yhteisössä.

Kansainvälisyys

Kansainvälisyys riippuu työharjoittelupaikasta ja työtehtävistä. Kokonaan kansainvälisen työharjoittelun suorittamiseen on oma opintojaksonsa.

Sisältö

Kaikille pakollinen työharjoittelu on oleellinen osa liiketalouden ja matkailun koulutusohjelmien opintoja. Työharjoitteluksi hyväksytään koulutusohjelman opintoja tukeva kokopäiväinen tai vähintään 20 viikkotunnin osa-aikainen työ.

Harjoittelun suorittamiseen kuuluu

- osallistuminen työharjoitteluinfoon ennen harjoittelun aloittamista,
- harjoittelu työpaikalla,
- harjoitteluraportin laatiminen ja harjoittelupalautteen antaminen harjoittelun jälkeen

Harjoittelupaikka on hyväksyttävä etukäteen. Harjoittelupaikan hyväksyy työharjoittelukoordinaattori. Työharjoitteluohjeet ja työharjoitteluun liittyvät lomakkeet löytyvät opiskelijan MyNetistä. Opiskelijan tulee olla ilmoittautunut läsnäolevaksi työharjoittelua suorittaessaan.

Oppimistavat

Tämän opintojakson osaamistavoitteet voi saavuttaa esimerkiksi seuraavilla tavoilla:

- a. Ennakkoon työharjoittelukoordinaattorin kanssa sovitun työharjoittelu suorittaminen reaalijassa TAI
- b. Aikaisemmin soveltuvan työkokemuksen raportointi

Arviointitavat

Opiskelija ei saa työharjoittelusta arvosanaa, ainoastaan hyväksyty-merkinnän. Työnantajan tulee kuitenkin toimittaa ohjaavalle opettajalle sanallinen arvio työharjoittelijan työstä.

Opintojakso voidaan hylätä mikäli opiskelija ei noudata esimiehensä tai harjoittelukoordinaattorin tai ohjaavan opettajan ohjeita tai heidän kanssaan tekemiä sopimuksia tai mikäli työharjoittelun aikana opiskelijalle kertyy liikaa poissaoloja.

Vastuopettaja(t)

Kullakin Porvoon koulutusohjelmalla on oma vastuopettaja eli työharjoittelukoordinaattori:

Tobba ja Pobba: Leena Aitto-oja

Pomo: Ulla Kuisma

Liipo: Maria Ruohtula

ViMa sekä kansainväliset ulkomailta tehtävät työharjoittelut: Liisa Wallenius

Oppimateriaalit

Kaikki työharjoitteluun liittyvä ohjeistus on MyNetissä: *Ura ja työharjoittelu > Työharjoittelu > ohjelmakohtaiset ohjeet*

Työharjoittelu 1

Tunnus: PLA6PO101

Laajuus: 10 op (33 päivää, opintopistemäärä muokattavissa)

Ajoitus: 2. lukukauden jälkeen

Kieli: Riippuu työpaikalla käytetystä kielestä

OPS: Kaikki Porvoon OPS:t

Opintojakson taso: työharjoittelu

Opintojakson tyyppi: pakollinen

Lähtötaso ja sidonnaisuudet muihin opintojaksoihin

Opiskelija voi lähteä työharjoitteluun, kun hän on suorittanut vähintään 60 opintopistettä. Halutessaan voi opiskelija suorittaa työharjoittelun useammassa pienemmässä osassa, joista tämä Työharjoittelu 1 ensimmäinen, ja jonka opintopistemäärä on muokattavissa toteutuneen työn mukaan (27h työtä = 1op). Muut työharjoitteluopintojaksot ovat Työharjoittelu 2 PLA6PO102, 10 op (opintopistemäärä muokattavissa); ja Työharjoittelu 3 PLA6PO103, 10 op (opintopistemäärä muokattavissa). Erikseen suoritettujen työharjoitteluopintojaksojen yhteenlaskettu pistemäärä on 30 op (=800h).

Osaamistavoitteet ja arviointi

Opiskelija ymmärtää omien ammatillisten taitojen kehittämisen tärkeyden ja tunnistaa kehittämistarpeensa. Hän osaa arvioida ja kehittää omaa työtään ja työympäristöään. Opiskelija ymmärtää yhteyden koulussa opitun ja työtehtävien välillä.

International Work Placement

Code: PLA6PO110

Extent: 30 ECTS (completed as one or two to three shorter units)

Timing: 4th semester or earlier if completed in smaller units

Language: English

Curriculum: All Porvoo Curricula

Level: Work Placement

Type: Compulsory

Starting level and linkage with other courses

The student has successfully completed the Basic Studies (= the two first semester courses) or 120 ECTS if wishing to do the 30 ECTS work placement. Tourism students might have their first placement after the 1st semester.

Learning objectives and assessment

The student learns to develop his/her professional skills and to link his/her academic studies with real-life work practices and is able to evaluate and develop his/her workplace environment. Work placement is assessed as pass (H=accepted) or fail. Please see MyNet for further information.

Recognising and validating prior learning (RPL)

If students have longer previous employment experience involving responsible tasks within the main study field, they can show the competence with a demonstration and progress faster through their studies. More information and instructions for recognising and validating prior learning (RPL) are available at MyNet.

Internationality

Work placement is performed in an international setting where the student works and communicates with other nationalities in an international setting outside Finland or his/her home country.

Contents

Work placement period is one uninterrupted period or several shorter ones. Work placement can be full-time or part-time work with a minimum of 20 h/week. A student submits a written work placement notification (application) to the work placement coordinator. Work placement comprises the following:

- Participation in a placement info meeting before work placement.
- Contact with the work placement advisor (lecturer) before and during the placement.
- Placement period in an approved company or organization.
- Keeping a learning log.
- Submitting a written or an oral placement report with the required attachments. OR Alternatively, writing HH work placement blog and submitting the required documents to the advisor.

- Giving feedback on the learning platform or submitting a Work Placement Abroad –student report

Learning methods

Work placement lecture

Independent work according to goals set

Communication with the work placement advisor

Assessment

Work placement is assessed Pass or Fail. The employer/supervisor at the work placement evaluates the student's competence and gives a written evaluation/testimonial.

Teachers responsible

Work Placement Coordinator for International Placement:

Liisa Wallenius, placement abroad

Leena Aitto-oja, non-Finnish students' placement in Finland

International Work Placement 1

Code: PLA6PO111

Extent: 10 cr (33 days)

Timing: 4th semester or as agreed

Language: according to the country and organisation

Level: Work Placement

Type: Compulsory

Starting level and linkage with other courses

Completion of work placement 30-60 cr.

Learning outcomes

The student

- learns to develop his/her professional skills and to link his/her academic studies with real-life work practices
- is able to evaluate and develop his/her workplace environment

Work placement is an integral part of polytechnic studies and students can apply for work placement after they have completed 30 -60 cr. The placement has to be approved in advance by the work placement co-ordinator. Students have to be registered as attendants during the work placement.

Course contents

Work placement period is normally uninterrupted. In case a student wants to complete his/her work placement in two parts. Work placement can be full-time or part-time work with a minimum of 20 h/week. A student has to make a written application (work placement notification) to the work placement coordinator. Work placement comprises the following:

- Participation in a placement info meeting before work placement.
- Contact with the work placement advisor (lecturer) before and during the placement.
- Placement period in an approved company or organization. Keeping a learning log.
- Submitting a written or an oral placement report with the required attachments.
Alternatively, writing HH work placement blog and submitting the required documents to the advisor.
- Giving feedback on the learning platform or submitting a Work Placement Abroad –student report

Work placement information meetings are arranged twice a month and the dates are announced on MyNet and info TV.

Cooperating with the business community

The course is realized in work life within a business community.

International dimension

Work placement is performed in an international setting where the student works and communicates with other nationalities in an international setting outside Finland or his/her home country.
